DIRECTOR'S MESSAGE

THE CYCLE REPEATS ITSELF EACH YEAR.

As outdoor enthusiasts, our excitement begins in early spring with the release of the application hunt book and the tag application process. Shortly thereafter, although it can feel like an eternity, tag draw results are released. Successful tag applicants begin to plan their hunts with friends and family, excitedly scouting locations for their anticipated adventures. Unsuccessful applicants find solace through invitations from luckier friends and family. It is within these August through December hunt seasons when lifelong memories are made. Following their hunt, successful hunters seek creative recipes, trade meat processing secrets, and share their bounty with relatives, friends, and neighbors. Some, keep and tan hides or preserve horns and antlers as precious mementos from times shared with cherished people. The cycle continues throughout the holiday season when hunters relive the past season's adventures. They share wild harvested foods and the tales of their origin, perhaps stretching the truth at times. Some are lucky enough to extend their outdoor adventures into January and February chasing the "devil bird' , otherwise known as chukar, sitting in the marsh for a chance to get a duck or goose, or standing on frozen water in pursuit of a meal or two of fish. When it all winds down and fresh new green growth emerges from a long winter nap, the cycle begins again, with new hopes and new opportunities.

Despite the predictability of this annual cycle, it is critical to take inventory on the bigger picture of conservation. What are we as sportsmen and women doing in the conservation arena? What does our future look like? What are the challenges and where are the opportunities? There are numerous significant and exciting events and activities occurring around the conservation community right now. Recovering America's Wildlife Act (RAWA) is gaining significant support in the House of Representatives with the hope of companion legislation being introduced in the Senate shortly. Passage of this landmark legislation could bring significant resources to the state of Nevada and help to more effectively and adequately address the conservation needs of our many species. The Relevancy Roadmap is a newly released document designed to address the growing challenges around the relevancy of who we are and what we do as conservationists, sportsmen and women, and state wildlife agencies. Gaining and keeping broad support for conservation is paramount to delivering effective conservation and meeting the public's expectations.

Certainly, there are challenges we face as well. The North American Bird Conservation Initiative (NABCI) released a report which showed a 2.9 billion bird loss in North America of the past 50 years. The report stated that nearly 30% of all North American birds have disappeared in the last 50 years. However, recovery is not only possible when we invest in conservation activities but evident through the direct support by hunters and anglers. Of 10 different biomes analyzed, only one showed any increases in bird abundance; that was the wetland biome. Contrary to the findings in all other biomes, the wetland biome showed a gain of 20 million birds. Ducks, geese, turkeys, and grouse, the hunted species, were some of the only species in all North America to show increases over the past 50 years. The contributions of hunters and anglers to protect, restore, and enhance populations and habitat are undeniable. Thank you!

Although our ride on the annual cycle of emotions around the big game tag draw of excitement, anticipation, planning, enjoying, sharing, and reliving is habitual and predictable, it is our contributions to conservation that truly define us. Conservation of species and habitats is the primary benefit of your participation and it is important we recognize and appreciate that. As we go around and around on our annual cycle, much like riding on a Ferris wheel, although our seat stays the same the view is always changing. It is imperative we take time to reflect on the big picture as our views change.

I wish each one of you luck in this year's big game tag draw and want to thank each of you for your contributions to the conservation of Nevada's wildlife and its habitat.

Sincerely,
Tony Wasley – *Director*, Nevada Department of Wildlife

QUALIFICATIONS FOR RESIDENT LICENSES

A person is considered to be a resident of the State of Nevada if he is a citizen of, or is lawfully entitled to remain in, the United States, and during the six months next preceding his application to the Department for a license, tag or permit, he maintained his principal and permanent residence in this State; was physically present in this State, except for temporary absences; and did not purchase or apply for any resident license, tag or permit to hunt, fish or trap in another state, country or province. A person who does not maintain his principal and permanent residence in Nevada but who is attending an institution of higher learning in this State as a full-time student is eligible for a resident license, tag or permit if, during the six months next preceding his application to the Department for a license, tag or permit, he/she: was physically present in Nevada, except for temporary trips outside of the State, and did not purchase or apply for any resident license, tag or permit to hunt, fish or trap in another state, country or province. A resident license, tag or permit issued by this State is void if the person to whom it was issued establishes or maintains his principal and permanent residence in and obtains any hunting, fishing or trapping privilege or entitlement conditional on residency from another state, country or province. Principal and permanent residence means a place where a person is legally domiciled and maintains a permanent habitation in which he lives. The term does not include merely owning a residence in the state (NRS 502.015).

MILITARY STATIONED IN NEVADA

Any member of the Armed Forces of the United States who has been assigned to permanent duty, as opposed to temporary or casual duty, within the State of Nevada qualifies for all necessary hunting or fishing licenses, tags or permits for fishing, hunting or trapping in the State of Nevada. A like privilege must be extended to spouses and dependents, under the age of 21, of such members of the Armed Forces. All such licenses, tags or permits must be issued on the same terms and conditions and at the same costs as licenses, tags or permits are issued to Nevada residents, except that the 6 months' residence requirement must be waived (Per NRS 502.070).

NEVADA ELIGIBILITY INFORMATION

MULE DEER

Eligible persons may apply for both antlered AND antlerless mule deer hunts, but may only obtain one (1) mule deer tag per year; OR eligible juniors may apply for the junior antlered/antlerless mule deer hunt.

ANTELOPE

Eligible persons may apply for both antelope horns longer than ears AND antelope horns shorter than ears hunts, but may only obtain one (1) antelope tag per year.

APPLYING FOR ELK

An eligible applicant can apply for antlered, spike, and antlerless elk in the same draw period but may only obtain one (1) elk tag per year. In addition to antlered and antlerless elk, an applicant may also apply for antlered depredation and antlerless depredation hunts. Be advised that once an elk tag is drawn, all remaining elk applications become unsuccessful. There is the possibility an applicant could draw a spike or antlerless depredation tag instead of an antlered elk tag.

ELK ELIGIBILITY Q&A

Q: Can I put in for both a antlered tag and an antlerless elk tag?

A: *Yes. However, you may only obtain one (1) elk tag in the same draw.*

Q: How many elk tags could I obtain in the draw?

A: *Only one (1) elk tag may be obtained in the same draw regardless of sex or antler class.*

Q: Can I apply for the antlered elk and the spike elk hunt in the same draw?

A: *Yes. However, you may only obtain one (1) elk tag in the same draw. For example, if your spike elk application is drawn first, your antlered elk application would become unsuccessful. Further, if you also applied for an antlerless elk tag, your antlerless elk application would also become unsuccessful.*

Q: I put in for antlered elk. Can I apply for the spike elk hunt and the antlered elk depredation hunt in the same draw?

A: *Yes. See "Notable Changes to the Application Process" on page 10.*

Q: I am in a waiting period for antlered elk, can I apply for the spike bull hunt?

A: *Yes.*

Q: I am eligible for antlered elk. Can I apply for the antlered elk hunt, the antlered elk depredation hunt, the spike elk hunt, the antlerless elk hunt, and the antlerless elk depredation hunt?

A: *Yes. However, you will be paying the nonrefundable application fees for each application you submit. You will only be able to draw one (1) elk tag. You could have a low draw number for the antlerless elk depredation hunt, draw that tag, and all other elk applications will become unsuccessful. We advise the strategic use of bonus point-only applications if you prioritize certain hunts over others.*

Q: Can I earn bonus points on the spike elk hunt if unsuccessful?

A: *Yes.*

Q: Can I apply for both the spike elk hunt and an antlerless elk hunt in the same draw?

A: *Yes. However, you may only obtain one (1) elk tag in the same draw.*

RAM AND EWE SHEEP ELIGIBILITY Q&A

Q: I am eligible for a bighorn sheep ram hunt (Desert or California). Can I apply for the bighorn sheep ewe hunt?

A: *Yes, if you are eligible for both. However, you will only be able to obtain one tag in the same subspecies. Be aware that if the ewe application is drawn first, the ram application will become unsuccessful and vice versa. One strategy is to put in for bonus points for one or the other hunts.*

Q: I am eligible for a Rocky Mountain ram hunt. Can I apply for the Desert and California bighorn ewe hunt?

A: *Yes. As long as you are eligible for those hunts.*

Michael, age 15, with his father and his 2019 bull elk.

Brian Hanson glassing on a 2019 mule deer hunt.

IS THERE AN ORDER TO THE BIG GAME TAG DRAW?

ANSWER:
No, the big game tag draw uses a random draw number order. Applications are evaluated sequentially beginning with the lowest draw number assigned in the tag draw. The application with the lowest draw number will be awarded a tag. The application with the second lowest draw number will be awarded a tag if quota remains or converted to unsuccessful if the quota is filled. The application with the third lowest draw number will then be evaluated, followed by the fourth lowest draw number, and so forth until all applications in the draw have been evaluated. This is an important consideration when submitting applications for both sexes of a single species. For example, if an applicant's antlerless mule deer application is evaluated and awarded a tag before their antlered mule deer application, the status of their antlered mule deer application would be converted to unsuccessful.

NEVADA BIG GAME SEASONS

LIMITS AND HOURS

The limit is one animal per tag and the hunting hours are one-half hour before sunrise to one-half hour after sunset for all big game hunts, unless otherwise specified.

Important: The quotas listed are from the 2019 big game seasons. Big game quotas will not be set until the May 2020 Commission meeting in order to accommodate the most current data on big game herds. New hunts, dates or units added to a hunt are marked in ***bold blue italics***.

Note: Standard dates for opening and closing of seasons are set by calendar date and not based on a Saturday opening and Sunday closing.

BEFORE YOU APPLY

The Department maintains several informational resources on our website at *www.ndow.org* to help with planning your hunt including: Hunter Information Sheets (facts on terrain, vegetation, land ownership, hunter access, map references, local services and recommended hunting areas), hunt application advisories, big game demand, hunter success rates, harvest point class and bighorn sheep age and scores.

BIG GAME MAIN DRAW ELECTRONIC TAG RETURN

NEW FOR 2020: Within seven (7) days of public release of draw results, the successful tag recipient can choose to electronically return his or her tag at *ndowlicensing.com*.

IMPORTANT INFORMATION FOR 2020

Helicopters and your Hunt

Each year, the Nevada Department of Wildlife conducts about 1000 hours of surveys with two Department helicopters to determine the productivity and distribution of wildlife species from mule deer to eagles. These aircraft are occasionally supplemented by contracted fixed-wing aircraft or helicopters to assist during high-demand periods. Wildlife surveys are essential to harvest regulation, and the Department strives to avoid conducting surveys during hunting seasons. Unfortunately, due to weather and demands associated with optimal survey timing, the Department sometimes must conduct surveys during seasons when a hunt may be ongoing. We are asking hunters to recognize that a survey may occur during any open hunting season, although the Department will do its best to reduce this to the extent possible.

Notable Changes to the Application Process

- Within seven (7) days of public release of draw results, the successful tag recipient can choose to electronically return his or her tag at *ndowlicensing.com*.
- Eligible persons may apply for both antlered AND antlerless mule deer hunts, but may only obtain one (1) mule deer tag per year; OR eligible juniors may apply for the junior antlered/antlerless mule deer hunt.
- Eligible persons may apply for both antelope horns longer than ears AND antelope horns shorter than ears hunts, but may only obtain one (1) antelope tag per year.
- Harvested bighorn sheep ewes do not need to be physically inspected by the Department.
- Successful bighorn sheep ewe tag winners and mountain goat tag winners must complete a mandatory sheep and goat gender identification course prior to receiving their tags.
- Harvest return card questionnaires are not required if a harvested bighorn sheep ram, black bear, or mountain goat is physically inspected by the Department.
- Eligible persons may apply for antlered elk, antlered depredation elk, spike elk, antlerless elk, and antlerless depredation elk but may obtain only one (1) elk tag per draw application period;
- Antlerless elk management hunts have been closed for the 2020-2021 Big Game Season.

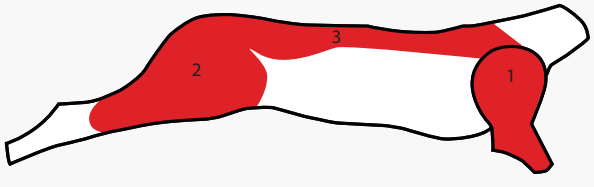
MINIMUM LEGAL REQUIREMENTS FOR TAKING EDIBLE MEAT FROM THE FIELD

Hunters are encouraged to use as much of their harvest as possible. Although most meat from big game is edible, below are the minimum lawful requirements.



In the case of a big game mammal, except mountain lion and black bear, the meat of the front quarters as far as the distal joint of the radius-ulna (knee), hind quarters as far as the distal joint of the tibia-fibula (hock), and the meat along the backbone between the front and hind quarters.

1. Front Quarter (Shoulder)
2. Hind Quarter (Thigh)
3. Backbone (Backstrap / Tenderloin)

AFTER THE SHOT

You have a responsibility and are required to care for the meat you have just taken.

Remember to keep your meat:

- Cool
- Clean
- Dry

Respect the animal you have taken and the results will show up at the dinner table later.

Depredation Hunts are intended to drastically reduce elk numbers. Poor hunter success expected.

BE AWARE OF ELIGIBILITY CHANGES FOR ELK

- Eligible persons may apply for antlered elk, antlered depredation elk, spike elk, antlerless elk, and antlerless depredation elk but may obtain only one (1) elk tag per draw application period;
- Antlerless elk management hunts have been closed for the 2020-2021 Big Game Season. The elk management hunt was previously used to achieve higher elk harvests, while not negatively impacting hunter experience due to increased hunter congestion. This hunt is no longer necessary as the hunts were successful in achieving desired elk population decreases.

NEVADA MULE DEER HUNTS

Junior hunter Eslie Clifford and her first buck.

RESIDENT

JUNIOR MULE DEER HUNTS

ANTLERED OR ANTLERLESS

Junior youth tag holders can harvest an antlered or antlerless deer. This tag allows the junior hunter to hunt during the archery season when the unit is open for archery only; to hunt with a muzzleloader when the unit is open for muzzleloader only; and to hunt with any legal weapon when the unit is open for any legal weapon. If a junior hunt applicant is unsuccessful in drawing a tag, bonus points will be awarded for the junior hunt.

Note: Any bonus points accrued in the junior hunt will automatically transfer to the antlered deer category at the time the junior hunter becomes ineligible for the junior hunt by either age, or after 5 years of application for the junior hunt.

Junior youth must be 12 years old prior to the opening of each hunt choice applied for (usually Archery), and will not attain their 18th birthday until after the last day of the last season applied for (usually Any Legal Weapon). An eligible junior hunter may apply no more than 5 years.

PARTNERSHIP IN WILDLIFE (PIW) HUNTS (CR 20-06)

Partnership In Wildlife (PIW) is a voluntary and optional participation program that offers unique hunting opportunities for a few state-wide big game tags. A person with a PIW tag may hunt with an authorized weapon in any unit with an open season for the species listed on the tag during the season dates when that unit is open for that species and weapon class.

APPLICATION INSTRUCTIONS

Applicants who are eligible and apply for hunts in the big game main draw can also apply for PIW hunts for antlered deer, antelope horns longer than ears, Nelson (desert) bighorn sheep ram, antlered elk, and California bighorn sheep ram. The PIW application fee is an additional $10 for each species, which is deposited into the Wildlife Heritage Trust Account.

FUNDS BENEFIT WILDLIFE HERITAGE TRUST

The funds raised through PIW applications are placed in the Wildlife Heritage Trust Account. Nevada statute allows 75% of the money deposited into this account, 100% of the interest earned on the account during the previous year, and a portion of the principle to be used by the Department for the protection, propagation, restoration, transplantation, introduction, and management of any game fish, bird, or mammal and the management and control of predatory wildlife in the state. The Nevada Board of Wildlife Commissioners is responsible for reviewing and approving expenditures from this account.

Every year a number of wildlife management projects are funded by the Wildlife Heritage Trust account. PIW promises to benefit Nevada's wildlife by providing financial support to the Wildlife Heritage Trust account and the sportsmen and women who support Nevada wildlife by providing additional, unique hunting opportunities that would not otherwise be available in the state.

Applications must be submitted to the Department on a form provided by the Department.

- Carry a cocked crossbow containing an arrow or a bolt while in or on any motorized vehicle while the vehicle is on a public highway or other public right-of-way.

Archery Disability Permit: A person with a permanent physical disability can now qualify for a permit that authorizes them to use a crossbow or a bow that uses a mechanical device that can anchor a nocked arrow at full draw or partial full draw during an archery hunt.

As used for this permit, "permanent disability" means a disability which prohibits a person from manually drawing and holding a legal bow at full draw. Contact your local NDOW Office for information.

SIGHT ATTACHED TO FIREARM OR BOW NAC 503.145

3. A radioactive isotope such as tritium; or
4. Iridescent or fluorescent paint.

It is unlawful for a person to hunt a big game mammal, a game mammal or a game bird with a weapon that is equipped with a sight that is capable of casting or projecting a beam of light that is visible to the unaided human eye from the sight to the animal.

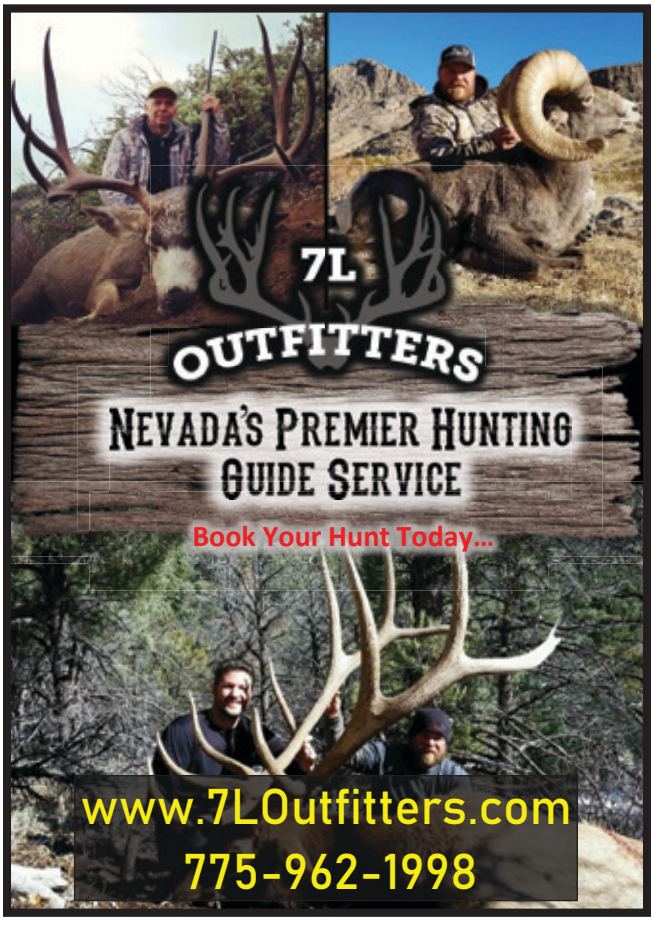
HUNTER EDUCATION REQUIREMENTS

Anyone born after January 1, 1960 is required to provide proof of Hunter Education, in order to purchase a Nevada hunting license. Proof of Hunter Education is an official Hunter Education card or certificate from any state or Canadian province, with the Hunter Education number and state or provincial logo or seal or a previous year's hunting license with the Hunter Education number or mark. If you have taken a hunter education class in another state or Canadian province, verification must be provided. (NRS 502.330)

BONUS POINT INFORMATION

WHAT IS A BONUS POINT?

An accumulated credit (or point) that authorizes the Department to issue an applicant additional computer generated random draw numbers during a draw. One point is accumulated for every application that is unsuccessful in the computerized draw for an established species category. The bonus point system grants an applicant one random draw number for each bonus point that has been accumulated going into the drawing for that species category. Each bonus point random draw number is in addition to the application random draw number. The total number of accumulated points is squared and added to the current application to arrive at the total number of random draw numbers that will be assigned



to the application for that species category (e.g. Hunter has two bonus points entering draw: 2^2 (2 x 2=4) 4+1 (for current application) = 5. Applicant receives five random numbers for draw) This system provides applicants with an added chance of receiving a low random number in the draw, hence improving their draw odds, while still providing a chance (no matter how small) for any applicant.

BONUS POINT PROGRAM GUIDELINES NAC 502.4187-4189 AND NAC 502.4225

Residents and nonresident tag applicants receive bonus points for all hunts that have a quota set by the Wildlife Commission when they are unsuccessful in drawing a tag through the computerized random draw system. In addition to deer, elk, antelope, sheep, goat and black bear applicants also receive bonus points for wild turkey. Prior to applying or during the application process applicants must purchase the hunting or combination hunting and fishing license to earn bonus points.

Bonus points are awarded by specific species categories, each encompassing all separate weapons hunts available in that category. These categories are: antlered mule deer, antlerless mule deer, antlered Rocky Mountain elk, antlerless Rocky Mountain elk (antlerless elk), spike Rocky Mountain elk, Pronghorn antelope whose horns are longer than their ears, Pronghorn antelope whose horns are shorter than their ears, mountain goat and black bear. Rams, from each of the following subspecies: Nelson (desert) bighorn sheep, California bighorn sheep and Rocky Mountain bighorn sheep. Ewes, from each of the following subspecies: Nelson (desert) bighorn sheep, California bighorn sheep and Rocky Mountain bighorn sheep.

Those points cannot be transferred to another person or into another species category.

Applicants are only able to accumulate one bonus point per species category each year. So, if you applied for any legal weapon tag and were unsuccessful, and then applied for an archery tag in a separate draw, and were unsuccessful, you still only accrue one point because these are both in the antlered deer category.

However, if you apply for any legal weapon tag, and are unsuccessful, and then apply for a doe tag in separate draws, and are unsuccessful, you would receive a bonus point for each because they are in two different categories — antlered deer and antlerless deer. Depredation and management hunts do not earn bonus points.

Those applying as a "party hunt" will have their points averaged (total points of all hunters in the party, divided by the number of hunters) and rounded to the closest whole number. Bonus points are squared by species category, resulting in the number of draw numbers that an individual hunter or hunt party will receive in that drawing.

Except for tags issued during the first-come, first serve draw a hunter's bonus points revert to zero in a particular species category when he is successful at obtaining a tag or fails to apply for two consecutive years.

Because the draw numbers that determine whether or not a hunter draws a tag are generated randomly across all applications, there is no guarantee that a hunter will draw a tag for the species category because he or she may have more bonus points than anyone else.

BONUS POINT PROGRAM EXCEPTIONS NAC 502.4187

Bonus points are not awarded for depredation hunts or management hunts. (Refer to NACs 502.4188 and 502.4189)

REFUND OF FEE FOR HUNTING LICENSE – LOSS OF BONUS POINTS

An applicant who fails to obtain a tag may obtain a refund of the fee for his/her hunting license if the license is not a combined hunting and fishing license and he/she:

1. Purchased the license solely to apply for a tag;
2. Does no hunting under the authority of the license; and
3. Submits the license to the Department on or before the last weekday of August of the year in which the license was valid. The Department shall accept the license only if it is received on or before that date.

Please be aware that an applicant will not be awarded any bonus points if they obtain a refund for their hunting license.

LICENSE REQUIREMENTS

LICENSE OR PERMIT REQUIRED FOR HUNTING; LIMITATIONS ON HUNTING BY MINORS NRS 502.010

- Any person 12 years of age or older, who hunts big game mammals in Nevada is required to have a hunting license or combination hunting and fishing license.
- A child under 12 years of age cannot hunt big game animals. The child may accompany licensed big game hunters.
- A child under 18 years of age, hunting with a firearm, must be accompanied at all times by the child's parent or guardian. A parent or guardian may authorize an adult to take the child hunting, if that adult is licensed to hunt and accompanies the child at all times; or
- With the permission of a parent, a child 14 years of age or older may hunt alone if the child has a valid hunting license in his or her possession and uses a shotgun or rifle that is not a fully automatic firearm. (NRS 202.300)

INFORMATION TO BE FURNISHED BY APPLICANT

STATEMENT OF PARENT OR GUARDIAN REQUIRED FOR MINORS; PENALTIES FOR FALSE STATEMENTS; USE OF INVALID LICENSE UNLAWFUL NRS 502.060

If a child under the age of 18 years is applying for a license to hunt, the child's parent or legal guardian must sign the application and an attached statement acknowledging that the parent or legal guardian has been advised of the provisions of NRS 41.472.

Any person who makes any false statement or furnishes false information to obtain any license, tag or permit issued pursuant to the provisions of this title is guilty of a misdemeanor.

Any person who makes any false statement or furnishes false information to obtain any big game tag issued pursuant to the provisions of this title is guilty of a gross misdemeanor.

It is unlawful for any person to hunt, fish or trap using any hunting, fishing or trapping license which is invalid by reason of expiration or a false statement made to obtain the license.

Any person convicted of violating these provisions forfeits any bonus point or other increased opportunity to be awarded a tag in a subsequent drawing conducted for that tag if the bonus point or other increased opportunity was acquired by the false statement or false information.

As used in this section, "big game tag" means a tag permitting a person to hunt any species of pronghorn antelope, bear, deer, mountain goat, mountain lion, bighorn sheep or elk.

Shooters & Hunters: Help Prevent Wildfires.

The target shooting and hunting community prides itself on being safe and responsible with firearms in all situations—from using them outdoors to storing them safely at home. Sometimes, however, unusual conditions such as extremely dry environments require an extra level of awareness and safety on the part of shooters.

Wildfires have many possible causes. The National Shooting Sports Foundation, the trade association for the firearms and ammunition industry, reminds all shooters that during dry and hot weather conditions their use of certain ammunition and targets could accidentally ignite a wildfire. NSSF reminds all target shooters and hunters, as well as other outdoor enthusiasts, to consider the potential consequences of their activities in fire-prone environments.

- **Make it a point to know the regulations and rules related to shooting in areas experiencing dry and hot conditions, whether on public or private land or at shooting ranges. Many national forests, for example, do not allow recreational shooting when fire restrictions are in effect.**
- **Consider the type of ammunition and targets you are using. Minimize the risk of fires by not using steel-jacketed ammunition, ammunition with steel-core components, tracer rounds or exploding targets in fire-prone areas.**
- **Remember that equipment, such as cars and ATVs, can have extremely hot exhaust systems that could ignite dry vegetation, so park only in designated areas.**
- **Extinguish and dispose of smoking materials safely.**
- **Follow guidelines to extinguish campfires.**
- **Warn others of potential dangers and behaviors for starting wildfires.**
- **Report any wildfire you see to authorities.**
- **Spread this message to other target shooters, hunters and outdoor enthusiasts.**

This Year's Wounded Hero: Robert Evans

This year's wounded hero is Robert Evans, an Iraq veteran originally from Crescent Valley, Nevada. Upon graduating from Battle Mountain high school in 2003 he left for Basic Training in Fort Benning, Georgia. After graduating Infantry School, he attended Airborne School at Fort Benning. He then attended Fort Bragg for some more classes and training before ultimately being assigned to Alpha Co., 1st Battalion, 15th Infantry Regiment, 3rd Brigade, and 3rd Infantry division. "In 2005 my unit was deployed to Iraq for Operation Iraq Freedom III. During that time I received a spinal injury due to a roadside bomb. In May of 2007 while participating in a route clearance and search for explosives and weapons I was the commander of my Bradley. We were the last vehicle in our convoy and as we were passing under an old Iraqi army guard post an IED on top of the structure detonated and amputated my right hand an inch or so below the wrist. Fortunately our platoon medic was riding in my vehicle and he managed to get the bleeding under control until a Blackhawk MEDVAC helicopter took me to the Army hospital in Baghdad where I underwent my first couple surgeries. I managed to get a hold of a Satellite phone to notify my wife and family of my injury. I wanted them to hear it from me first. Following a day or so in Baghdad I was moved to Kuwait, then onto the Army hospital in Landshtul, Germany where I underwent another 2-3 surgeries. After several days there I was then moved to Walter Reed Army Medical Center in Washington, D.C. while there I went through another 3-4 surgeries where they removed the remainder of my wrist. I spent 6-8 months at Walter Reed undergoing rehabilitation and being fitted for prosthetics and recovering. I was right-handed prior to my injury so I had to learn to do everything left-handed."
