FRESHWATER FISHING

2021 DIGEST

Lakes and Rivers Galore

I am new to Fish and Game, but I was born and raised in New Hampshire and have spent a lifetime working in the outdoors of our Granite State. I grew up with my friends ice fishing for lake trout and cusk on the hard waters of Lake Winnepesaukee and Lake Winnisquam with my father and his friends. Or we would be off with another father to catch bass or pickerel through the ice on a local pond. When school let out and summer started, my friends and I would spend our nights catching hornpout for breakfast. Today our youth have many

more ways to spend their time, but there is no replacement for some good quality time spent fishing as a family. And don't forget to involve your children's friends too.

We are very fortunate to live in such a beautiful state that includes nearly 1,000 fishable lakes and 12,000 miles of rivers and streams. Popular coldwater species include brook, brown, and rainbow trout, lake trout, and landlocked salmon. For those who prefer warm water, New Hampshire offers small- and largemouth bass, pickerel, black crappie, bluegill, and yellow perch among others. Whether you are an expert or a novice, fish from a boat or from shore, or enjoy casting or fly fishing, there is truly something for everyone when it comes to angling in the Granite State.

Whether you're a seasoned angler, a lapsed fisherman, or someone who has thought about fishing but haven't yet, why not make this the year to try something new? Take the kids fishing and pass the sport on to a new generation—children under 16 fish for free. Don't forget our free fishing days on January 16 and June 5 in 2021, when anglers do not need a license to try fishing.

Our hatchery staff stock over a million trout as well as landlocked salmon for your fishing enjoyment each year. The healthy fisheries we have today are the result of conservation efforts here at Fish and Game dating back to 1865, when the State Legislature established the Commission on Fisheries to reverse the trend of rapidly depleted species around the state. Because of careful management from raising and stocking fish to stream restoration and watershed conservation to population testing and assessment, fishing opportunities abound.

Also thanks to our Public Boat Access Program, guided by the Public Water Access Advisory Board, or PWAAB, there are more than 140 Fish and Game boat launch sites around the state. Construction and maintenance of these facilities is supported in part by the federal Sport Fish Restoration Program.

So get outside, be safe, and happy fishing!

Scott R. Mason

N.H. Fish and Game — Our Mission

As the guardian of the state's fish, wildlife and marine resources, the New Hampshire Fish and Game Department works in partnership with the public to:

- Conserve, manage and protect these resources and their habitats;
- Inform and educate the public about these resources; and
- Provide the public with opportunities to use and appreciate these resources.

The N.H. Fish and Game Department receives Federal Assistance from the US Fish & Wildlife Service, and thus prohibits discrimination on the basis of race, color, national origin, disability, age and sex, pursuant to Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, Title IX of the Education Amendments of 1972, and the Age Discrimination Act of 1975. If you believe you have been discriminated against in any program, activity or service, please contact or write the US Fish & Wildlife Service, Division of Wildlife and Sport Fish Restoration, 4001 N. Fairfax Drive, Mail Stop: WSFR – 4020, Arlington, Virginia 22203, Attention: Civil Rights Coordinator for Public Programs.

About This Publication

This publication is a summary of fishing regulations. It is not the full laws or rules. It is intended only as a guide to inform the angler of seasons and other necessary information.

For more detailed information concerning regulations, consult the New Hampshire Fish and Game Law Book, Fish and Game Administrative Rules, or contact your local Conservation Officer. Fish and Game laws and rules may be viewed at any Fish and Game office (contact information on this page); Legislative Services, Administrative Rules, in the State House Annex, 25 Capitol St., Room 219, Concord, NH 03301; and at fishnh.com or nh.gov. A compendium of Fish and Game laws may also be purchased at Department headquarters in Concord for \$41.

This publication is partially paid for through the sale of advertising. The New Hampshire Fish and Game Department neither endorses products or services listed or claims made nor accepts any liability arising from the use of products or services listed.

WILDLIFE HERITAGE FOUNDATION OF NEW HAMPSHIRE

The Wildlife Heritage Foundation of New Hampshire is the official non-profit partner of the New Hampshire Fish and Game Department. The foundation raises money and works with wildlife professionals and conservation education partners to fund Fish and Game's conservation of wildlife and natural places important to New Hampshire family traditions such as fishing, hiking, hunting, and wildlife watching.

In recent years, the foundation has supported a wide range of projects, including aerial stocking of trout into remote ponds, monitoring river herring passage on the Lamprey River, kiosks for the Connecticut Lakes Natural Area, Fish and Game's Landowner Relations Program, Conservation Canine search and rescue dogs, publication of *Wild Times for Kids*, and improvements at Owl Brook Hunter Education Center and Barry Conservation Camp.

Funding for the Wildlife Heritage Foundation's grants program comes from individual and corporate donors and from the annual auction of fish and game permits and licenses. The foundation accepts general and targeted cash donations, as well as planned gifts and tangible assets; most contributions are tax-deductible.

To learn more about the foundation or make an online donation, visit nhwildlifeheritage.org or contact admin@nhwildlifeheritage.org or (603) 496-2778. Thanks for your support!

WILDLIFE HERITAGE FOUNDATION of NH

SHARING THE PAST, SHAPING THE FUTURE.

Wildlife Legacy Initiative

Supporting Fish and Game's Landowner Relations Program

If you love New Hampshire's fish, wildlife, and wild places, give a little extra this year when you buy your fishing or hunting license or make a donation. Support the **Wildlife Legacy Initiative** and help the New Hampshire Fish and Game Department's Landowner Relations Program, working to keep New Hampshire open to all outdoor users by protecting access to private land.

When you contribute to the **Wildlife Legacy Initiative**, be assured that 100% of your donation goes to support an important New Hampshire effort. The Landowner Relations Program actively encourages local landowners and hunters, anglers and wildlife watchers to maintain access to open lands and helps to address issues and concerns landowners face in providing this access on their property. Learn more at wildnh.com/landshare.

You can donate when you buy your license — in person or online at wildnh.com. Just check off the \$10 Wildlife Legacy Donation...and thank you!

Renewable U.S.

LICENSE INFORMATION

Fishing licenses are required for people 16 years of age and older. Review page 7 for license information.

How to Use This Book

1. Review *License Information* on pages 6–7; *Definitions* on pages 8–9; *Important Laws and Rules*, including *Unlawful Actions* on pages 10–11; and *Ice Fishing Rules* on page 31.
2. If you want to fish a lake or pond, check to see if it is listed in *Lakes & Ponds with Special Rules* (pages 14–20).
 - » If it is listed, make note of any restrictions, seasons, bag limits, methods or additional/special rules shown. For those lakes and ponds listed as Trout Ponds, Fly-fishing only, Wild Trout, or Lake Trout and/or Salmon waters, refer to *Lakes & Ponds: Special Rules* on page 12.
 - » If the lake or pond is not listed on pages 14–20, follow *Lakes & Ponds: General Rules* (page 13), including seasons, bag limits, etc., as shown.
3. If you want to fish a river or stream, check to see if it is listed in *Rivers & Streams with Special Rules* (pages 23–25).
 - » If it is listed, make note of any restrictions, seasons, bag limits, methods or additional/special rules shown for the specified section.
 - » If the river or stream is not listed on pages 23–25, follow *Rivers & Streams: General Rules* (page 22), including seasons, bag limits, etc., as shown.
4. Interstate Waters — see pages 38–39.

Buying a License

Fishing and hunting licenses, valid Jan. 1 to Dec. 31 of each year, may be purchased online via fishnh.com, from license agents, Fish and Game Department headquarters in Concord, Fish and Game Region 1, 2, and 4 offices, and some town or city clerks. Applicants must purchase their own licenses.

Lost Licenses

Lost licenses may be reprinted at the original issuing agent or Fish and Game's Concord headquarters. If purchased at a license agent, and it is at least one week from the date of issue, the license can be reprinted from the online sales site. There is no charge for reprints, however, there is a limit on the number of reprints allowed.

Violation/Revocation

Convictions for violations of any fishing law or rule, littering, or criminal trespass (RSA 214:19; 207:36-b; 635:2) will result in the revocation of your fishing license or privilege.

Exceptions

A fishing license is not required for children under the age of 16 (RSA 214:2).

Fisheries Habitat Fee

All freshwater anglers pay a \$1 fisheries habitat fee, which is included in the license price. Revenue is used to improve and restore fisheries habitats. For more information, see page 32.

Residency Requirements

To obtain a license at resident rates, the person must present to the issuing agent a valid New Hampshire driver's license or non-driver's picture identification card issued by the N.H. Department of Safety, Div. of Motor Vehicles. Whenever the applicant is under 18 years of age, the parent or guardian of the applicant shall be a resident and present their valid N.H. driver's license or non-driver's picture identification.

Note: Any person who is no longer a legal resident of the state, but still retains a valid N.H. driver's license, is guilty of a misdemeanor if he/she tries to obtain a resident fishing, hunting, or trapping license based on this driver's license.

Military Licenses

N.H. residents who are regular active duty in the US Army, Navy, Marines, Air Force, or Coast Guard permanently stationed outside the state are eligible for free temporary hunting and fishing licenses and may acquire them at no charge. Available at N.H. Fish and Game Headquarters in Concord; Region 1, 2 and 4 offices; or by mail or fax (603) 271-5829 (download an Active Duty Military License application from the Fish and Game website and send with duty orders). A copy of duty orders must be presented for verification. Call (603) 271-3422 for information.

Non-resident military personnel on regular, active duty, and permanently stationed in New Hampshire, may purchase licenses at N.H. resident rates. (Cannot be purchased online or at Walmart).

SHOPWILDNH.COM

Connecting you to life outdoors™

Buy Your Annual Hike Safe Card

\$25 for individual or \$35 per family. Available through online purchase only, at wildnh.com/safe. Hike Safe Cards are good for the calendar year (expiring on December 31). Card holders are not liable to pay rescue costs, with some exceptions. Purchase is voluntary.

A great way to support the Fish and Game Search and Rescue Fund. If you have a current N.H. fishing or hunting license or OHRV, snowmobile, or boat registration, you are already covered!

LICENSES: FEES & REQUIREMENTS

	TYPE OF LICENSE	2021 FEE	AGE
N.H. RESIDENTS	Resident Hunting & Freshwater Fishing¹ Proof of hunter ed. course or previous hunting license required.	\$56.00	16–67
	Resident 1-Day Freshwater Fishing¹	\$10.00	16–67
	Resident Freshwater Fishing¹	\$45.00	16–67
	Recreational Saltwater Fishing²	\$11.00	16+
	Senior Freshwater Fishing^{1,3} Available to N.H. residents born in 1948 or later, and at least 68 years of age at the time of purchase. Must be purchased annually.	\$7.00	68+
	Senior Combination Hunting and Fishing^{1,3} Available to those born in 1948 or later, and at least 68 years of age at the time of purchase. Must be purchased annually. Proof of hunter education course or previous hunting license required.	\$7.00	68+
NONRESIDENTS	Nonresident Hunting & Freshwater Fishing¹ Proof of hunter ed. course or previous hunting license required.	\$151.00	16+
	Nonresident Freshwater Fishing¹ (all species)	\$63.00	16+
	Recreational Saltwater Fishing²	\$11.00	16+
	Nonresident 1-Day Freshwater Fishing¹	\$15.00	16+
	Nonresident 3-Day Freshwater Fishing¹ (consecutive days only)	\$28.00	16+
	Nonresident 7-Day Freshwater Fishing¹ (consecutive days only)	\$35.00	16+

NOTE: All license prices include a \$1.00 agent fee. A \$1.00 Fisheries Habitat Fee has been added to all Freshwater Fishing Licenses. A \$2.00 transaction fee (\$2.75 online) is charged for each license form. Hunting licenses also require a \$2.50 wildlife habitat fee.

- 1 Fishing licenses allow taking of fish in freshwater.
- 2 A N.H. Recreational Saltwater License is required for recreational taking, possessing, or transporting of finfish from N.H. coastal and estuarine waters. For more information, see the *N.H. Saltwater Fishing Digest*.
- 3 For N.H. residents born in 1947 or earlier, a **free permanent Milestone license is available** for fishing (freshwater) or combination hunting & fishing. Available only at Fish and Game headquarters in Concord or Regional Offices 1, 2, and 4; also available at select licensing agents, or by mail using the application at fishnh.com.

SELECTED MISCELLANEOUS LICENSES Available only in person or by mail at the N.H. Fish and Game Department, 11 Hazen Drive, Concord, NH 03301. (603) 271-3422.	2021 FEE
Newborn Lifetime NH Hunting & Freshwater Fishing Parent/legal guardian must be N.H. resident. Child's birth certificate required. Available from birth to day before first birthday. Purchase at Fish and Game headquarters or by mail (see fishnh.com/licensing/forms.html).	\$304.50
Resident Guide, Hunting or Fishing	\$100.00
Nonresident Guide, Hunting or Fishing	\$100.00
Bait Dealer's Retail	\$26.00
Bait Dealer's Wholesale	\$76.00

Buying Your License

New Hampshire fishing licenses can be purchased online at fishnh.com, from one of our 185 friendly license agents statewide (listed at fishnh.com/licensing), or in person or by mail at Fish and Game headquarters, 11 Hazen Drive, Concord, NH 03301. A \$2 transaction fee is charged for each license form (\$2.75 for Internet purchases).

Carry Your License

The license must be carried on your person when fishing or hunting. For **fishing licenses** (not hunting), a pdf or other fixed image of a valid license visible on a smart phone is sufficient to comply with the law, as long as a Conservation Officer can view the information contained on the license, and a photo ID can be presented.

Non-Resident Student Licenses

Full-time students attending school in New Hampshire may purchase non-resident fishing or hunting licenses at resident rates. Students may be in high school, college or graduate school; they must be registered for at least 12 credit hours per semester. To get the reduced rate, you must show a valid, current school ID. These licenses are sold only at Fish and Game headquarters, 11 Hazen Drive, Concord NH 03301, in person or by mail.

FLY FISHING IN NEW HAMPSHIRE'S SECRET WATERS

New Hampshire's hard and rugged exterior protects one of America's richest native brook trout fisheries. The anticipation of the largest mayfly hatch contrasts with the quiet, deep waters of holding

pools, and anglers are rewarded when they learn how to read the rivers and streams. With more than fifty years of experience, Steve Angers reveals some of his favorite spots and details what it takes to be successful when fishing in the Granite State.

Available at
NorthCountryAngler.com
or other fine resellers

DEFINITIONS

Angling: The taking of fish by line in hand or rod in hand to which is attached a cast of artificial flies, or an artificial bait, or hooks or other devices for the attachment of bait. A person may use up to two lines. Rod holders are permitted.

Artificial bait: Any fishing bait constructed by humans as an imitation or substitute for natural bait or fish forage and includes but is not limited to spinners, spoons, poppers, plugs, jigs and plastic, rubber or other artificial imitations of natural bait. Artificial bait does not include a fly.

Bag and creel limit: The number or weight of any kind of wildlife permitted to be killed in a specified time.

Bait: Dead or live natural bait whether in part or whole and includes but is not limited to fish, mollusks, crustaceans, amphibians, invertebrates, reptiles, or their progeny or eggs, and power bait or any ingestible substance.

Black bass: Largemouth and smallmouth bass.

Brook trout: Brook, rainbow, brown and golden trout, Loch Leven trout and all their hybrids.

Cast of artificial flies: No more than 3 flies.

Closed Season: That period of time during which fish, game, wild or fur-bearing animals, or marine species may not be taken or killed, and all periods of time not included within the open season.

Culling: The act of exchanging a fish for one of the same species already in possession.

Cusk fishing device: A device for storing line in a manner which is not free-running and is securely attached to the device and to which is attached a sinker, weighing at least one ounce,

not more than 6 inches above, and independent of, an attached single hook for bait. The weight must rest on the bottom of the lake. If using lead sinker, it must be greater than one ounce. See page 33. The device shall be plainly marked with name and address of the person using it. These devices may only be used on certain approved waterbodies listed on page 31.

Fly: A hook dressed with feathers, hair, thread, tinsel, or any similar material to which no spinner, spoon, or similar device is added.

Fly-fishing: Fishing by trolling or casting with only fly rod, fly reel, and fly line combination with an artificial fly or cast of artificial flies attached, and does not include the use of spinning, spincast, and casting rods and reels and lead core lines.

Ice fishing: Taking freshwater fish during the open season through man-made openings in the ice by the use of ice fishing devices.

Ice fishing device: Any device used to take fish through the ice, including a tip-up, jig stick, rod in hand, or handline, exclusive of a cusk fishing device.

Ice-in: That period when the surface of a body of water or a portion thereof is covered with sufficient ice to safely support a person.

Inclusion of dates: Whenever a period is named during which an act is permitted or prohibited, both the first and second dates named shall be included within such period.

Man-made opening: A hole in the ice made by an ice cutting tool, including but not limited to augers, chisels, and saws. Man-made openings shall not include areas that remain ice-free due to current and movement created by dock aerators and similar devices.

Minimum length or minimum total length: The shortest total length of a fish allowed to be taken.

Net: Any open fabric constructed of string, cord, thread, or wire knotted or woven together in such a way as to be capable of entraining or entrapping finfish.

Open Season: That period of time during which wildlife may be legally taken or killed.

Set line: An unattended line placed in the fresh waters of the state (including through the ice) for the purpose of taking fish, which is not under the direct view and control of the person placing the line.

Single hook artificial lure: An artificial lure with one single hook with not more than 3 hook points.

Snagging, snatching, or lifting: The taking or attempted taking of any fish by foul hooking, that is, hooking the fish in any part of the body other than inside the mouth.

Take or Taking: Includes pursuing, shooting, hunting, killing, capturing, trapping, snaring, and netting wildlife, and all lesser acts, such as disturbing, harrying, worrying, wounding, or placing, setting, drawing, or using any net or other device commonly used to take wildlife, whether they result in taking or not. Includes every attempt to take and every act of assistance to every other person in taking or attempting to take wildlife, provided that whenever taking is allowed by law, reference is had to taking by lawful means and in a lawful manner.

Tandem fly: Two single-pointed hooks dressed with feathers, hair, thread, tinsel, or any similar material and joined together by a single strand of wire or line, one behind the other to form a single artificial fly. There shall be no spinner, spoon, or similar device added.

Tip-up: A fishing device for storing line, designed to be set through the ice and to indicate when something has disturbed the bait attached thereto.

Total length: The greatest possible length of the fish with mouth closed and caudal (tail) fin rays squeezed together to give the maximum overall measurement. For all fish that have a total length limit, the head and tail must remain intact while on or leaving the waters of the state.

Tributary: Any waters flowing directly or indirectly into a waterbody.

Trolling: Angling by trailing a line from a vessel defined in RSA 270-D:1 XI being propelled by machinery, electric, or manual power.

When you buy your fishing license, consider adding a donation to Fish and Game's Nongame and Endangered Wildlife Program. Nongame projects protect endangered fish, conserve key wetland habitats, and help a wide range of species. Donate online at wildnh.com/nongame/donate.html.

LEGENDARY FISHING AWAITS!

SALMON RIVER, PULASKI NEW YORK

It only takes one light tackle hook-up for you to understand why they are called Steelhead.

Anglers from around the world will tell you that these underwater lightning bolts do more than steal your bait. By the time they have had their way with you, they'll have stolen your heart and soul. Whether heading upstream for a fall feeding frenzy or dropping back to Lake Ontario in the spring, these 5-10 lb. "chromers" will give you the freshwater fight that brings you back for more.

Let this be your year to experience the legendary waters of the Salmon River -- long regarded as one of North America's premier steelhead destinations!

IMPORTANT LAWS & RULES

• **Possession and use of live fish for bait:** Only the following species shall be possessed and used as live fish for bait when fishing any freshwaters of the state: rainbow smelt (*Osmerus mordax*), longnose dace (*Rhinichthys cataractae*), blacknose dace (*Rhinichthys atratulus*), northern redbelly dace (*Phoxinus eos*), lake chub (*Couesius plumbeus*), creek chub (*Semotilus atromaculatus*), fallfish (*Semotilus corporalis*), golden shiner (*Notemigonus crysoleucas*), common shiner (*Luxilus cornutus*), emerald shiner (*Notropis atherinoides*), spottail shiner (*Notropis hudsonius*), silvery minnow (*Hybognathus nuchalis*), creek chubsucker (*Erimyzon oblongus*), longnose sucker (*Catostomus catostomus*), white sucker (*Catostomus commersonii*) and killifish/tomcod (*Fundulus sp.*).

• **Approved bait fish species (excluding white suckers)** may be taken for personal use by licensed anglers with up to six traps not over 18 inches long each, with an opening not over one inch in diameter, or a circular drop net not over 48 inches in diameter; or a square net of equal area. Each trap must have the angler's name and address on it. Daily limit 2 quarts (liquid measure). There is no daily limit for white suckers.

• **Commercial harvesting** of bait is permitted with a bait dealer's license and under specific rules. The license is available from the New Hampshire Fish and Game Department. More on page 37.

• **While taking fish in open water, two hooks may be used for bait per line**, one with a single hook point and the other with no more than three hook points, **except** for certain lake trout and salmon lakes, where only a single hook with a single hook point may be used (see pages 14–20).

hours after sunset and one hour before sunrise is prohibited.

• **Traps, nets, fish houses, holding boxes, or other receptacles** used to take, hold, or to keep live bait fish in public waters must be marked with the name and address of the owner and user.

• **While anglers are being guided**, as defined in RSA 207:1 XII and XIII, and taking freshwater fish by trolling (as defined on page 9) the number of lines being used for angling shall not exceed the legal number of lines allowed for each angler, excluding the guide(s).

• **Fishing tournaments on New Hampshire waters** require a permit. Applications are taken on a first-come, first-served basis and are available from the New Hampshire Fish and Game Department. Except for bass tournaments, the permit fee is \$49.00.

• **Bass fishing tournaments:** Applications are accepted beginning October 1 for permits requested for the following year. Applications for each bass tournament event received between October 1 and December 1 will be assigned a random computer-generated number. After the lottery, "first come, first serve applications" will be accepted prior to issuance starting March 1 and will be issued a sequential number upon receipt. When there are multiple requests for bass tournaments on the same date and waterbody, preference will be given to the application(s) for bass tournament(s) with the lowest assigned

Let's Go Fishing!

Want to learn how to fish, enhance your fishing skills, help turn a friend into a fishing buddy? Check out *Let's Go Fishing* classes from N.H. Fish and Game's Aquatic Resources Education team! Free courses are offered throughout the state by trained volunteer instructors who bring a wealth of experience and knowledge to help anglers get started.

Courses available for adults and children on fly fishing, saltwater fly fishing, fly tying, ice fishing and more. Visit fishnh.com.

• A person may use **up to 2 lines** for open-water fishing.

• **Fishing is allowed at any time of the day or night, except the taking of brook trout, brown trout, rainbow trout, lake trout, trout hybrids, and salmon** between two

When in doubt about whether a fish you have caught is legal, play it safe and release the fish unharmed.

Ban on Lead Sinkers and Jigs

State law prohibits the use of lead sinkers and jigs weighing 1 ounce or less, regardless of length, in all fresh waters of New Hampshire. The sale of these lead sinkers and jigs is prohibited in the state of New Hampshire. Learn more at fishleadfree.org.

Catch & Release

• **Time is of the essence.** Play and release the fish as quickly and carefully as possible.

• **When landing a fish**, use a net with fine mesh or rubber net to avoid injury. A net is probably not necessary for small fish. Keep the fish in the water as much as possible. A fish out of water is suffocating and could be injured.

• **When releasing a fish**, handle it as little as possible when removing the hook. When handling the fish, do not let it flop around or squeeze it. Gently hold the fish around the middle and upside down while removing the hook. This position calms the fish and deters it from moving around.

• **Remove the hook** with small pliers or use your thumb and forefinger to loosen and back out the hook. If a hook cannot be easily removed, cut the leader as close as possible to the hook. The hook will rust or fall out in a short time.

• **To revive a tired fish**, hold it in a swimming position with one hand under its bottom jaw and the other hand grasping the fish in front of the tail. Gently move the fish back and forth through the water until it is able to swim away.

IMPORTANT LAWS & RULES

number(s). The permit fee is \$49.00, except for “catch and immediate release” and “club level” bass tournaments which are \$10.00.

Unlawful Actions

- The sale of freshwater fish is prohibited, other than approved bait fish sold by licensed individuals.
- Snagging fish in freshwaters is prohibited. Any fish accidentally snagged must be immediately released to the water.
- No fish may be taken by use of a set line (as defined on page 9) in freshwater, which would include so-called “jug fishing.”
- Exceeding daily bag limits of fish is prohibited, whether taken from one or several water bodies.
- No person may have in his possession at one time more wildlife (including fish) than he may lawfully take in 2 days.
- No person shall have live lake trout, landlocked salmon, brook trout, black bass, northern pike, or black crappie in their possession, except if the person is a bass tournament permittee or is an aquaculturist permittee or has a permit to import, possess, or release these fish.
- Release of fish in waters other than where caught is prohibited. Fish must be returned to the water where taken.
- Culling of fish, except during permitted bass tournaments, is prohibited.

- The water surrounding any dam containing a fishway is closed to fishing. (See *Rivers and Streams with Special Rules* on pages 23–25.)
- The use of alewives, carp, or goldfish as live bait while fishing is prohibited. The use of shad or whitefish as bait for cusk is prohibited.
- Importation of live fish or their eggs, including bait fish, is prohibited without a special permit.
- Except as otherwise specifically permitted, it is unlawful to use or have in possession poisons, explosives, net, set line, fishing otter, trawl, grapple, spear, jack, jack light, or electrical or other device for killing or stunning fish.
- To counsel or aid another in violating a fishing rule is prohibited.
- The use of lead sinkers and jigs weighing 1 ounce or less, regardless of length, is prohibited in all fresh water. Sale of lead sinkers and jigs (1 ounce or less, regardless of length) is prohibited.
- The use of a gaff to take fish in any fresh waters of the state is prohibited.
- To continue to take or attempt to take fish after filling the daily bag limit for that species of fish is prohibited.
- It is illegal to tag, brand, fin-clip, or otherwise mark any fish prior to release without written permission to do so from the N.H. Fish and Game Executive Director.

LAKES & PONDS: GENERAL AND SPECIAL RULES

General Fishing Rules

General Fishing Rules apply to most lakes and ponds in the state. Follow the seasons, bag limits, length limits, and important notes listed with each species in the chart on the facing page. **The taking of brook trout, brown trout, rainbow trout, lake trout, trout hybrids, and salmon between two hours after sunset and one hour before sunrise is prohibited.**

Lakes & Ponds with Special Rules — Pages 14–20

This section has information on lakes and ponds with Special Rules. These waterbodies have rules that may differ from, or be in addition to, the *General Fishing Rules for Lakes & Ponds*.

Turn to *Lakes & Ponds: Special Rules* on pages 14–20. If you find the waterbody you intend to fish in the table, look to the right for the waterbody's designation under the "Special Rules" column. It will either be a Lake Trout and/or Salmon Lake, a Fly-Fishing-Only Pond, a Trout Pond, a Wild Trout Pond, or a miscellaneous special regulation water.

Want Answers About Your Favorite Lake's Water Quality?

Join the New Hampshire Department of Environmental Services (DES) Volunteer Lake Assessment Program (VLAP) and find out!

Be a VLAP Volunteer!

Volunteers provide critical water quality data to DES by collecting water samples from lakes that they live near or fish most. This data helps DES to determine if lakes are meeting water quality standards and if lake restoration projects are required.

For more information about your favorite lake or how to join VLAP, contact Sara Steiner, VLAP Coordinator, at (603) 271-2658 or sara.steiner@des.nh.gov.

This page (see below) has information on season dates, bag limits, length limits and other species information for these special waters.

Interstate Waters: See pages 38–39.

Lake Trout and/or Salmon Lakes

Several waterbodies are managed for lake trout and/or landlocked salmon, and are open year-round subject to restrictions listed below. For information on bag and length limits for species other than trout and salmon in this waterbody, see *Lakes & Ponds: General Rules* on the next page.

1. The taking of brook trout, brown trout, rainbow trout, lake trout, trout hybrids, and salmon between two hours after sunset and one hour before sunrise is prohibited.
2. Minimum Length:
 - » Brook trout, rainbow trout, brown trout and their hybrids: 15 inches.
 - » Lake trout: 18 inches
 - » Landlocked salmon: 15 inches.
 - » The head and tail must remain intact while on or leaving the waters of the state.
3. From January 1 to March 31:
 - » Fish may be taken by ice fishing only;
 - » The combined daily bag limit for all trout species, including lake trout, is 2 fish;
 - » Closed to the taking of landlocked salmon (salmon season is from April 1 to September 30);
 - » Two (2) ice fishing devices are allowed per person. Single hook with single hook point for bait, or an artificial lure or flies shall be used to take fish through the ice;
 - » Six (6) cusk fishing devices may be used to take cusk on approved waterbodies (see page 31).
4. From April 1 to September 30:
 - » The combined daily limit for lake trout, salmon, brook trout, rainbow trout, brown trout and their hybrids is 2 fish;
 - » Open to the taking of all species, except no smelt may be taken from March 15 to June 15.

5. From October 1 until December 31:
 - » Closed to the taking of lake trout, salmon, brook trout, brown trout, rainbow trout and shad (whitefish).
6. From April 1 through December 31, no person may take fish through the ice, from the ice, or from any object supported by the ice.

Trout Ponds

Designated Trout Ponds are managed for trout, and are open to fishing for all species from the fourth Saturday in April through October 15. Fishing for any species is prohibited from October 16 until the fourth Saturday in April the following year. For information on bag and length limits for species other than trout, see *Lakes & Ponds: General Rules* on the next page.

1. The taking of brook trout, rainbow trout, brown trout, lake trout, trout hybrids and salmon between two hours after sunset and one hour before sunrise is prohibited.
2. Trout ponds open on the fourth Saturday in April. Closed to salmon October 1 and to all species October 16.
3. The daily combined limit for trout is 5 fish or 5 pounds, whichever limit is reached first.
4. The use of live fish, or their eggs, for bait is prohibited. The use of salmon eggs, however, is permitted.

Fly-Fishing-Only Ponds

All rules listed above for *Trout Ponds* apply. In addition, fish may be taken only by fly-fishing (fishing by trolling or casting with only fly rod, fly reel, and fly line combination with an artificial fly or cast of artificial flies attached, and does not include the use of spinning, spincast, and casting rods and reels and lead core lines).

Wild Trout Ponds

All rules listed above for *Trout Ponds* apply, except:

1. Open season dates are from the fourth Saturday in April through Labor Day;
2. All fish shall be immediately released; and
3. Only single hook, barbless artificial lures and flies shall be used.

Water Supply Reservoirs

The waters listed at right are partially or wholly closed to fishing because they are public water supply reservoirs. Contact NHDES Drinking Water and Groundwater Bureau (603-271-7061) for more details.

- Babbidge Reservoir (Roxbury)
- Bear Pond (Warner)
- Canaan Street Lake (Canaan)
- Hanover Reservoirs (Hanover)
- Gilman Pond (Unity)
- Massabesic Lake (Manchester/Auburn)
- Penacook Lake (Concord)
- Rochester Reservoirs (Rochester/Strafford)
- Round Pond (Barrington)
- Upper Beech Pond (Wolfeboro)
- Woodward Pond (Roxbury)

LAKES & PONDS: GENERAL RULES

GENERAL FISHING RULES FOR LAKES & PONDS

SPECIES	SEASON	BAG LIMITS & MINIMUM LENGTHS	IMPORTANT NOTES
Black Bass (Smallmouth Bass & Largemouth Bass)	Jan. 1 to March 31	2 fish daily limit; only 1 fish >16 inches.	See exceptions for Clement Pond/Joe Silvia Lake, Grassy Pond, Gregg Lake, and Warren Lake.
	April 1 to May 14	2 fish daily limit; no length limit.	
	May 15 to June 15	Catch and release only.	Artificial lures and flies only.
	June 16 to June 30	2 fish daily limit; no length limit.	
	July 1 to Dec. 31	5 fish daily limit; no length limit.	
Brook Trout, Brown Trout, Rainbow Trout and their hybrids	Open water (ice-out to ice-in)	5 fish or 5 pounds daily limit, whichever is reached first; no length limit.	Many waterbodies with trout have special rules—see page 12. Designated trout ponds and fly-fishing-only ponds open the fourth Saturday in April and close Oct. 15. Lake Trout and Salmon Lakes are closed to taking trout from Oct. 1 to Dec. 31. Designated wild trout ponds open the fourth Saturday in April through Labor Day.
	Through the ice	2 fish daily limit; no length limit.	Designated trout ponds are closed to ice fishing.
Lake Trout	Jan. 1 to Sept. 30	2 fish daily limit. Minimum length 18 inches. Daily bag limit for lake trout and salmon is 2 fish (2 lake trout, 2 salmon, or 1 of each).	Lake Trout and Salmon Lake rules are on page 12. Stinson Lake (Rumney) and Tarleton Lake (Piermont) are examples of General Rules Waters that have lake trout.
Landlocked Salmon	April 1 to Sept. 30	2 fish daily limit. Minimum length 15 inches. Daily bag limit for lake trout and salmon is 2 fish (2 lake trout, 2 salmon, or 1 of each).	Most waterbodies with landlocked salmon are designated as Lake Trout and/or Salmon Lakes; see page 12. Taking landlocked salmon from Oct. 1 through March 31 is prohibited.
Chain Pickerel	No closed season.	10 fish daily limit; no length or weight limits.	See illustration on page 34.
Northern Pike	No closed season.	1 fish daily limit; minimum length 28 inches.	See illustration on page 34.
Walleye	No closed season.	2 fish daily limit; minimum length 18 inches; no weight limit.	See page 38 for walleye regulations in the Connecticut River.
White and Yellow Perch, Black Crappie, Sunfish, Horned Pout	No closed season.	25 fish each species daily limit; no more than 50 fish total combined; no length or weight limits.	
Rock Bass	No closed season.	No daily limits; no length or weight limits.	
Carp	No closed season.	No daily limits; no length or weight limits.	In addition to angling and ice fishing, carp may be taken by bow and arrow with a cord attached from the Connecticut River, Merrimack River and Mascoma Lake.
Cusk	No closed season.	No daily limits; no length or weight limits.	Can be taken by all legal methods (angling, trolling, tip-ups). For approved cusk fishing device waters, see page 31.
River Herring	No open season.		
American Shad	No closed season.	Catch and release only.	
Lake Whitefish	Jan. 1 to Sept. 30	2 fish daily limit; no length or weight limits.	
Round Whitefish	No open season.		All Round Whitefish must be immediately released.
Smelt	For smelt angling rules and waterbodies open to the taking of this species by dip net, see page 33.		
Suckers	No closed season for angling, ice fishing or traps.	No daily limits; no length or weight limits.	Suckers may be taken for personal use with two traps, not more than 50 inches long, 30 inches wide, with an opening no smaller than 3½ inches in diameter. All traps or holding boxes will have the name and address of the owner.
	March 1 to May 31	No daily limits; no length or weight limits.	Suckers may be taken by hand dip nets not over 18 inches in diameter, drop nets not over 48 inches in diameter, spears or bow and arrow with cord attached. Suckers taken by spear or bow and arrow must not be left in, or adjacent to, the body of water.

LEARNING ABOUT HEALTHY AQUATIC ECOSYSTEMS

The N.H. Fish and Game Department's Watershed Education Program allows students to become citizen scientists who study and work to improve aquatic habitats in their communities.

Monitoring Water Quality

Students start by visiting a local waterbody to collect water samples and measure dissolved oxygen, pH, temperature, turbidity, and conductivity. They also collect and classify macroinvertebrates. They use this chemical and biological data to determine the water quality.

Students then explore their watershed by using Geographic Information Systems (GIS)

maps. They import local data about their own watersheds, use Global Positioning System (GPS) units to locate their water quality testing sites, post water quality and macroinvertebrate data on the maps, and share that data with their local community and other watershed schools. In the process, they begin to see how human activities may impact the watershed.

Trout in the Classroom

As an extension of studying the river, students can raise trout eggs in the classroom through the **Trout in the Classroom** program. Or they can study fish behavior with a warmwater fish tank.

The Watershed Education Program also allows students to become fisheries biologists for a day to study the aquatic resources of a river. Working with N.H. Fish and Game staff, students experience fish sampling techniques; perform a habitat assessment; and collect, identify, and measure freshwater fish.

Learn More

For more information on signing up for the Watershed Education Program at your school, contact Judy Tumosa at (603) 271-0456 or judy.l.tumosa@wildlife.nh.gov

REEL FUN

GO FISH WITH THE KIDS!

Fishing is a great way to reconnect with friends and family. Children under age 16 don't need a license to fish, so bring them along for a day of fresh air, sunshine and family fun! An inexpensive rod-and-reel, a colorful, kid-friendly tackle box for toting hooks, sinkers, bobbers, lures, and a pair of pliers is all you need!

Catch a Smile

Plan ahead and let the kids help decide where to go and what to bring. Dress for the weather and don't forget snacks and drinks, a hat, sunglasses and sunscreen. It's a good idea to keep the first few trips short and let interest and enthusiasm grow.

For most kids, it's important to make a catch that first time out. You can help by seeking out places that are packed with panfish, like crappies and sunfish. Check our Take Me Fishing Guides for ideas on where to go and what kinds of fish you might catch. Don't forget the camera — you'll definitely want to have a picture of that first-fish smile!

"Unplug" from the Wired World

Being outside in the fresh air and sunshine is the most obvious benefit of learning how to fish, but taking a break from electronic devices

is an added bonus! Fishing doesn't have to be difficult or far from home. The important thing is to go fishing as a family and have fun!

Enjoy Free Fishing Days

Take advantage of New Hampshire's annual Free Fishing Days on January 16 and June 5, 2021. You can fish any fresh or salt water in N.H. without a license on those days. Applies to both residents and non-residents. All other fishing regulations apply. Note that all anglers participating in fishing tournaments on Free Fishing Days must have a license.

"takemefishing"

Find Fishing Close to Home

For fishing tips, species identification and places to cast your line in N.H., consult our Shoreline Fishing Guides to the Manchester/Nashua Region, the Concord/Capital Region, the Great North Woods, the Southwest Region, Seacoast N.H., the Lakes Region, Southeastern N.H. and the Upper Valley!

RIVERS & STREAMS: GENERAL AND SPECIAL RULES

General Fishing Rules

General Fishing Rules for Rivers and Streams apply to most rivers and streams in the state. Follow the seasons, bag limits, length limits, and important notes listed with each species in the chart.

Rivers & Streams with Special Rules

This section has information on rivers and streams with Special Rules. These rivers and streams have rules that may differ from, or be in addition to, *General Fishing Rules for Rivers and Streams*.

In general, rivers and streams are CLOSED TO ALL FISHING from Oct. 16 through Dec. 31, unless specified for a particular river in the *Rivers and Streams with Special Rules* section.

Fishing through the ice, from the ice, or from any object supported by the ice is prohibited unless specified for a particular river in the *Rivers and Streams with Special Rules* section.

The taking of brook trout, lake trout, trout hybrids and salmon between 2 hours after sunset and 1 hour before sunrise is prohibited, unless otherwise specified.

Turn to the *Rivers & Streams With Special Rules* section on pages 23–25. If you find the waterbody you intend to fish, look immediately beside it for the rules on season dates, bag limits, length limits and methods of taking.

In instances where special limits, seasons, and methods of taking are not noted for a particular river or stream, the *General Fishing Rules for Rivers and Streams* apply.

Interstate Waters: See pages 38–39.

GENERAL FISHING RULES FOR RIVERS & STREAMS

SPECIES	SEASON	BAG LIMITS & MINIMUM LENGTHS	IMPORTANT NOTES
Black Bass (Smallmouth Bass & Largemouth Bass)	January 1 to March 31	2 fish daily limit; only 1 fish >16 inches.	
	April 1 to May 14	2 fish daily limit.	
	May 15 to June 15	Catch and release only.	Artificial lures and flies only.
	June 16 to June 30	2 fish daily limit.	
	July 1 to October 15	5 fish daily limit.	
Brook Trout, Brown Trout, Rainbow Trout and their hybrids	January 1 to October 15	5 fish or 5 pounds daily limit, whichever is reached first; no length limit.	"Brook trout" include Brook, Brown, Rainbow, Golden, Loch Leven trout and all their hybrids.
Lake Trout	January 1 to September 30	2 fish daily limit for lake trout and salmon combined (2 lake trout, 2 salmon, or 1 of each); minimum length 18 inches.	Combined daily limit applies only during salmon season, April 1 – Sept. 30.
Landlocked Salmon	April 1 to September 30	2 fish daily limit for lake trout and salmon combined (2 lake trout, 2 salmon, or 1 of each); minimum length 15 inches.	Salmon may not be taken in any water body after September 30 and before April 1. Salmon may not be taken through the ice.
Chain Pickerel	January 1 to October 15	10 fish daily limit; no length or weight limits.	See illustration on page 34.
Northern Pike	January 1 to October 15	1 fish daily limit; minimum length 28 inches.	See illustration on page 34.
Walleye	January 1 to October 15	2 fish daily limit; minimum length 18 inches; no weight limit.	Special regulations in the Connecticut River — see page 39.
White & Yellow Perch, Black Crappie, Sunfish, Horned Pout	January 1 to October 15	25 fish each species daily limit; no more than 50 fish total combined; no length or weight limits.	
Rock Bass	January 1 to October 15	No daily limit; no length or weight limits.	
Carp	January 1 to October 15	No daily limit; no length or weight limits.	Carp may be taken in the Connecticut River, Merrimack River, and Mascoma Lake by bow and arrow with cord attached.
Cusk	January 1 to October 15	No daily limit; no length or weight limits.	
River Herring	No open season.		
American Shad	January 1 to October 15	Catch and release only.	
Lake Whitefish	January 1 to October 15	2 fish daily limit; no length or weight limits.	
Round Whitefish	No open season.		All Round Whitefish must be immediately released.
Smelt	For smelt angling rules and waterbodies open to the taking of this species by dip net, see page 33.		
Suckers	January 1 to October 15	No daily limits; no length or weight limits.	Suckers may be taken for personal use with two traps, not more than 50 inches long, 30 inches wide, with an opening no smaller than 3½ inches in diameter. All traps or holding boxes will have the name and address of the owner.
	March 1 to May 31	No daily limits; no length or weight limits.	Suckers may be taken by hand dip nets not over 18 inches in diameter, drop nets not over 48 inches in diameter, spears or bow and arrow with cord attached. Suckers taken by spear or bow and arrow must not be left in, or adjacent to, the body of water.

RIVERS & STREAMS WITH SPECIAL RULES

WATERBODY	TOWN(S)	SECTION	SPECIAL RULES: For species not listed under this section, please refer to the General Regulations section for Rivers and Streams.
Alder Brook	Second College Grant	All sections	Jan. 1 - Labor Day season. Catch-and-release, single barbless hook artificial lures/flyes. Managed for wild trout.
Ammonoosuc River	Littleton to Bath	Aphorp Dam in Littleton to confluence with Connecticut River in Bath	Brown trout may be taken any time of day or night during the open season.
Androscoggin River	Errol	Errol Dam to the markers at the dead water at Bragg Bay	Fly-fishing only. Daily limit for brook trout 2 fish; minimum length 12 inches
Androscoggin River	Dummer	Dummer-Cambridge town line to Pontook Dam	No closed season for all species except salmon. Daily limit of 2 brook trout through the ice.
Androscoggin River	Dummer to Berlin	Wheeler Bay in Dummer boundary line at 44° 36.9011'N 71° 13.3816'W to 44° 36.9341'N 71°13.4449'W using WGS84 map datum to Sawmill Dam in Berlin	Brown trout may be taken any time of day or night during the open season.
Androscoggin River	Berlin to Shelburne	Sawmill Dam in Berlin to ME/NH boundary	No closed season for all species. Single barbless hook, artificial lures/flyes. Catch-and-release all species.
Ashuelot River	Surry	Surry Mountain Reservoir	No closed season for all species. Daily limit of 2 brook trout through the ice.
Ashuelot River, South Branch	Troy to Swanzey	Marlborough Road bridge in Troy to Old Richmond Road bridge in East Swanzey	Fly-fishing only. Daily limit for brook trout 2 fish; minimum length 12 inches.
Bellamy River	Madbury	Bellamy Reservoir	No closed season for all species. Daily limit of 2 brook trout through the ice.
Blackwater River	Salisbury to Andover	The Bays and Cilleyville Bog	No closed season for all species. Daily limit of 2 brook trout through the ice.
Carroll Stream	Whitefield to Carroll	Upstream of its confluence with Airport Pond in Whitefield	Jan. 1 - Labor Day season. Catch-and-release, single barbless hook artificial lures/flyes. Managed for wild trout.
Cocheco River	Rochester to Dover	Watson Road dam downstream to head of tide	No closed season for all species. Oct. 16 to 4th Sat. in April - Catch-and-release, single barbless hook, artificial lures/flyes. 4th Sat. in April to Oct. 15 - Daily limit for brook trout 5 fish or 5 lbs., all legal methods.
Connecticut River	Pittsburg	Dam at Second CT Lake to upstream side of logging bridge on Magalloway Road	Fly-fishing only, catch-and-release for all species.
Connecticut River	Pittsburg	Magalloway Rd bridge to inlet at Green's Point on First CT Lake	Fly-fishing only. Daily limit for brook trout is 2 fish.
Connecticut River	Pittsburg	First CT Lake dam to the signs on Lake Francis	Fly-fishing only. Daily limit for brook trout is 2 fish; minimum length 12 inches.
Connecticut River	Pittsburg	Murphy Dam to NH/VT border	Jan. 1 to March 31: Catch-and-release, single barbless hook, artificial lures/flyes. April 1 to Oct. 15: Daily limit for brook trout 5 fish or 5 lbs. All legal methods.
Connecticut River	See also NH-VT Interstate Rules on page 39.		
Contoocook River	Rindge to Henniker	Contoocook Lake downstream to area marked with signs and wire in West Henniker	No closed season for all species. Daily limit of 2 brook trout through the ice.
Contoocook River	Henniker	From 2,500 ft. above former paper mill dam in West Henniker, marked by signs and wire, upstream 1 mile to a point marked by signs and wire	Jan. 1 through Nov. 30 season. Single hook artificial lures/flyes. Daily limit for brook trout is 2 fish; minimum length 12 inches.
Contoocook River	Henniker to Concord	From 2,500 ft. above former paper mill dam in West Henniker, to confluence with Merrimack River	No closed season for all species. Daily limit of 2 brook trout through the ice.
Dead Diamond River	Second College Grant	From confluence of Swift Diamond River downstream to Magalloway River	Jan. 1 through Sept. 30 season. Single barbless hook, artificial lures/flyes. Catch-and-release for trout. No limits for black bass
Dead Diamond River	Second College Grant	Headwaters to confluence with Swift Diamond River	Jan. 1 to Sept. 30 season. Daily limit of 5 brook trout or 5 lbs. All legal methods.
Ellis River	Jackson	From the covered bridge in Jackson to Iron Railroad Bridge in Glen	Fly-fishing only. Daily limit for brook trout is 2 fish
Exeter River	Brentwood to Exeter	Downstream side of the Cross Road bridge to Route 111 bridge	No closed season for all species. Oct. 16 to 4th Saturday in April: Catch-and-release, single barbless hook, artificial lures/flyes. 4th Saturday in April through Oct. 15: Daily limit for brook trout 5 fish or 5 lbs. All legal methods.
Exeter River	Sandown to Exeter	From Route 121-A to the Pickpocket Dam and from Route 111 to the Squamscott River	No closed season for all species. Daily limit of 2 brook trout through the ice. Closed to all fishing from the upstream side of the Pickpocket Dam and fishway including a 50 foot radius in front of the fishway on the upstream side to the downstream side of the Cross Road Bridge in the towns of Brentwood and Exeter
Flints Brook	Hollis	All sections	Jan. 1 - Labor Day season. Catch-and-release, single barbless hook artificial lures/flyes. Managed for wild trout.

RIVERS & STREAMS WITH SPECIAL RULES (CONTINUED)

WATERBODY	TOWN(S)	SECTION	SPECIAL RULES: For species not listed under this section, please refer to the General Regulations section for Rivers and Streams.
Gulf Brook	Chesterfield	All sections	Jan. 1 - Labor Day season. Catch-and-release, single barbless hook artificial lures/flies. Managed for wild trout.
Isinglass River	Barrington to Rochester	From Route 125 bridge downstream to confluence with Cocheco River	No closed season for all species. Oct. 16 to 4th Saturday in April: Catch-and-release, single barbless hook, artificial lures/flies. 4th Saturday in April through Oct. 15: Daily limit for brook trout 5 fish or 5 lbs. All legal methods.
Lamb Valley Brook	Second College Grant	All sections	Jan. 1 - Labor Day season. Catch-and-release, single barbless hook artificial lures/flies. Managed for wild trout.
Lamprey River	Raymond to Durham	Raymond/Deerfield town line to Wiswall Dam	No closed season for all species. Daily limit of 2 brook trout through the ice.
Lamprey River	Durham	Wiswall Dam to first railroad trestle downstream of Packers Falls	No closed season for all species. Oct. 16 to 4th Saturday in April: Catch-and-release, single barbless hook, artificial lures/flies. 4th Saturday in April through Oct. 15: Daily limit for brook trout 5 fish or 5 lbs. All legal methods.
Lamprey River	Durham	Wiswall Dam area	Closed to all fishing 200 feet below Wiswall Dam between April 1 and July 31. Closed to all fishing in the waters 50 feet above the Wiswall Dam year round.
Long Mountain Brook	Odell to Stratford	All sections	Jan. 1 - Labor Day season. Catch-and-release, single barbless hook artificial lures/flies. Managed for wild trout.
Loomis Valley Brook	Second College Grant	All sections	Jan. 1 - Labor Day season. Catch-and-release, single barbless hook artificial lures/flies. Managed for wild trout.
Lost River	Woodstock	From 100 ft. above parking area entrance bridge to 100 ft below last footbridge in Lost River Gorge	Closed to all fishing
Lyman Brook	Columbia	From headwaters to the upper bridge on Meriden Hill Road in Columbia	Jan. 1 - Labor Day season. Catch-and-release, single barbless hook artificial lures/flies. Managed for wild trout.
Magalloway River	Second College Grant, Wentworth's Location	All NH sections downstream to the markers at the confluence with Sturtevant Stream at 44°50.41638'N-71°03.03498'W using WGS84 map datum.	Jan. 1 through Sept. 30. Single barbless hook, artificial lures/flies. Catch-and-release for trout. No limits on black bass.
Magalloway River	Wentworth's Location, Errol	From the markers at the confluence with Sturtevant Stream at 44°50.41638'N-71°03.03498'W to the markers at confluence of Umbagog Lake at 44°47.73612'N-71°03.70758'W using WGS84 map datum.	Jan. 1 through May 31 & day after Labor Day through September 30. Single barbless hook, artificial lures/flies. Catch-and-release for trout. No limits on black bass. Fishing from the ice prohibited. June 1 through Labor Day. Single hook artificial lures/flies, only a single hook point shall be used with bait, all hooks shall be barbless or have barbs pinched, use or possession of live fish for bait shall be prohibited. Catch and release for trout. No limits on black bass. Closed to all fishing Oct. 1 - Dec. 31.
Mascoma River	Enfield to Lebanon	From Route 4 bridge south of Mascoma Lake Dam downstream to the covered bridge.	Fly-fishing only. Daily limit for brook trout is 2 fish.
Meadow Brook	Sharon	All sections	Jan. 1 - Labor Day season. Catch-and-release, single barbless hook artificial lures/flies. Managed for wild trout.
Merrimack River	Bow	Garvins Falls Dam from canal wall, including fish bypass plunge pool, to a point 300 feet downstream to main river.	Closed to all fishing.
Merrimack River	Franklin to Mass. border (except closed sections)	All sections	No closed season for all species except salmon. Daily limit of 2 brook trout through the ice.
Merrimack River	Manchester	Upstream side of Amoskeag Dam to upstream side of Amoskeag Bridge, and between west bank of river and island adjacent to powerhouse for 500 feet downstream of fishway entrance.	Closed to all fishing.
Merrymeeting River	New Durham	Merrymeeting Lake Dam to 200 ft below Powder Mill Hatchery	Closed to all fishing
Merrymeeting River	New Durham to Alton	From 200 ft. below Powder Mill Hatchery to lower dam at Alton	No closed season for all species except salmon. Daily limit of 2 brook trout through the ice
Merrymeeting River	Alton	From lower dam at Alton to Route 11 bridge at Alton Bay	Jan. 1 - June 15 and Oct. 1-31 fly-fishing only, barbless hooks, catch-and-release. June 16 - Sept. 30 combined daily limit for trout and salmon is 2 fish, minimum length 15 inches, minimum length for lake trout 18 inches
Mohawk River, West Branch	Colebrook	All sections	Jan. 1 - Labor Day season. Catch-and-release, single barbless hook artificial lures/flies. Managed for wild trout.
Nashua River	Hollis to Nashua	From MA/NH border to confluence with Merrimack River	No closed season for all species except salmon. Daily limit of 2 brook trout through the ice

RIVERS & STREAMS WITH SPECIAL RULES (CONTINUED)

WATERBODY	TOWN(S)	SECTION	SPECIAL RULES: For species not listed under this section, please refer to the General Regulations section for Rivers and Streams.
Nashua River	Nashua	Jackson Mills Dam 200 ft. above to 200 ft. below	Closed to all fishing
Nashua River	Nashua	Mines Falls Dam to 200 ft. below	Closed to all fishing
Newfound River	Bristol	Area between West Shore Road and dam adjacent to Crescent St	Jan. 1 - October 31 season, fly-fishing only. Jan. 1 - March 31: daily limit for trout is 2 fish and all salmon immediately released; April 1 - Sept. 30: combined daily limit for trout/salmon is 2 fish, minimum length for salmon and lake trout is 15 inches. Oct. 1-31: barbless hooks only, catch-and-release all fish
Pemigewasset River	Bristol	From Route 104 bridge to Ayers Island Dam	No closed season for all species except salmon. Daily limit of 2 brook trout through the ice
Pemigewasset River	Bristol	From Ayers Island Dam 300 ft. downstream	Closed to all fishing
Pemigewasset River	Bristol to Franklin	From 300 ft. below Ayers Island Dam to the Eastman Falls Dam in Franklin	No closed season for all species except salmon. Daily limit of 2 brook trout through the ice
Pemigewasset River	Franklin	From Eastman Falls Dam 150 ft. downstream	Closed to all fishing
Pemigewasset River	Franklin	From 150 ft. below Eastman Falls Dam to the confluence of Winnepesaukee River	No closed season for all species except salmon. Daily limit of 2 brook trout through the ice
Perry Stream	Pittsburg	Happy Corner Bridge to Connecticut River	Fly-fishing only. Daily limit for brook trout is 2 fish
Piscataquog River	Goffstown	Howe Bridge to Glen Lake	No closed season for all species. Daily limit of 2 brook trout through the ice
Piscataquog River, South Branch	New Boston	From 300 ft. upstream of the bridge located at 42° 57.447'N 71° 42.494'W using WGS84 map datum on Lyndeboro Road downstream to the first bridge on Route 13 in New Boston	October 16 - June 15: Catch-and-release, single barbless hook artificial lures/flyes. June 16 - October 15: Daily limit for brook trout is 5 fish or 5 lbs.
Pond Brook	Odell to Stratford	All sections	Jan. 1 - Labor Day season. Catch-and-release, single barbless hook artificial lures/flyes. Managed for wild trout.
Powwow River	Kingston	All sections	No closed season for all species. Daily limit of 2 brook trout through the ice.
Saco River	Conway	Lucy Brook downstream to confluence with Artist Falls Brook	Fly-fishing only. Daily limit for brook trout is 2 fish.
Sand Brook	Hillsborough	All sections	Jan. 1 - Labor Day season. Catch-and-release, single barbless hook artificial lures/flyes. Managed for wild trout.
Soucook River	Loudon to Pembroke	From Loudon Village Dam to confluence with the Merrimack River	No closed season for all species. Daily limit of 2 brook trout through the ice.
Souhegan River	Greenville to Wilton	From 300 ft upstream of green bridge on Old Wilton Road in Greenville to 300 ft downstream of Route 31 bridge in Wilton	October 16 - June 15: Catch-and-release, single barbless hook artificial lures/flyes. June 16 - October 15: Daily limit for brook trout is 5 fish or 5 lbs.
Sucker Brook	Auburn	From dam in Auburn Village downstream to Lake Massabesic	No closed season for all species. Daily limit of 2 brook trout through the ice
Sugar River	Newport	Rte. 11/103 Bridge to the so-called Oak Street Bridge	Jan. 1 - Nov. 30 season. Fly-fishing only. Daily limit for brook trout is 2 fish.
Suncook River	Barnstead to Allenstown/Pembroke	From Route 126 bridge in Barnstead downstream to confluence with the Merrimack River	No closed season for all species. Daily limit of 2 brook trout through the ice.
Swift River	Sandwich to Tamworth	From Route 113A bridge downstream to Route 113 bridge	Fly-fishing only. Daily limit for brook trout is 2 fish.
Swift Diamond River	Dixville to Second College Grant	Headwaters downstream to confluence with Dead Diamond River	Jan. 1 - Sept. 30 season
Taylor River	Hampton Falls	West of Route 95	No closed season for all species. Daily limit of 2 brook trout through the ice
Turkey River	Concord	All sections	No closed season for all species. Daily limit of 2 brook trout through the ice
Winnepesaukee River	Laconia to Tilton	From dam at Paugus Bay to 500 ft downstream and Messer Street bridge downstream to Dixon Point; and from old Union Bridge abutment in Tilton/Belmont downstream to a point 1000 ft below Lochmere Dam	April 1 - Sept. 30 season
Winnepesaukee River	Franklin	From Franklin Falls Hydro Dam to confluence with Pemigewasset River	No closed season for all species except salmon. Daily limit of 2 brook trout through the ice
Witches Spring Brook	Hollis	All sections	Jan. 1 - Labor Day season. Catch-and-release, single barbless hook artificial lures/flyes. Managed for wild trout.

INLAND FISHERIES DIVISION

The N.H. Fish and Game Department's Inland Fisheries Division is responsible for all freshwater fish within both state and interstate waters. Fisheries biologists and fish culturists work to protect and restore fish resources and aquatic habitat and to provide New Hampshire anglers with diverse fishing opportunities.

What we do...for you!

- Operate and maintain six hatcheries that raise and stock nearly 1 million trout and salmon annually.
- Provide diverse, high-quality fishing opportunities for anglers to enjoy.
- Monitor fish populations in numerous rivers, streams, lakes, and ponds.
- Restore populations of migratory species, including river herring, American shad, and American eels.
- Conserve, improve, and restore fisheries habitat in New Hampshire.
- Provide fisheries expertise and technical assistance to many organizations for the benefits of maintaining, improving, or restoring habitat and fish populations.

Fish biologists use telemetry to measure the movement of bass following fishing tournaments.

American shad are transported upriver in the Merrimack in an effort to restore their population.

A wildlife-friendly arched culvert reconnects fish habitat on Falls Brook in Swanzey.

Visit a State Fish Hatchery

New Hampshire's Fish and Game fish hatcheries are a great place to learn about how fish are hatched and reared. These facilities raise nearly a million trout each year! Hatcheries are open year round, from 8:00 a.m. to 4:00 p.m. Outdoor fish viewing is available throughout the year. Guided hatchery tours are available by reservation. You'll enjoy meeting our dedicated, hardworking hatchery staff, who not only understand the technical challenges of raising fish... many of them love to fish themselves!

N.H. RECORD AND TROPHY FISH

NEW HAMPSHIRE STATE RECORD FRESHWATER FISH

SPECIES	LENGTH	WEIGHT	WATERBODY	TOWN	DATE	ANGLER	STATE
American Eel	44.50"	8 lbs.	Crystal Lake	Eaton	7/6/1975	Michael Hansharak	NH
Black Crappie	17.00"	2 lbs. 15.84 oz.	Great East Lake	Wakefield	5/3/2016	Brian O'Day	NH
Bluegill	11.25"	2 lbs. 0.64 oz.	Goodwins Pond	Acworth	6/18/1992	Justin S. Therieau	NH
Bowfin	28.00"	8 lbs. 13 oz.	Wilson Pond	Swanzy	8/24/1994	Kenneth L'Abbe	NH
Brook Trout	25.50"	9 lbs.	Pleasant Lake	New London	5/8/1911	A. Val Woodruff	NH
Brown Bullhead	17.95"	3 lbs. 4.8 oz.	Merrimack River	Merrimack	8/06/2005	Donald Robbins	NH
Brown Trout	32.50"	16 lbs. 6 oz.	Connecticut River	Pittsburg	7/4/1975	Ken Reed, Jr.	CT
Carp (Bow Harvested)	40.50"	41 lbs. 0.04 oz.	Connecticut River	Hinsdale	6/2/2013	Kevin Martin	NH
Carp	37.00"	35 lbs. 13.12 oz.	Merrimack River	Manchester	5/16/2015	Donald St. Lawrence	NH
Chain Pickerel	26.00"	8 lbs.	Plummer Lake	Sanbornton	4/24/1966	Carroll R. Akeley	MA
Channel Catfish	31.30"	15 lbs. 5.28 oz.	Connecticut River	Chesterfield	8/29/2020	Matthew Smith	NH
Cusk	34.50"	12 lbs. 3.52 oz.	Lake Winnepesaukee	Gilford	3/13/2007	Ken Cayer	NH
Fallfish	20.75"	3 lbs. 8.96 oz.	Lake Winnepesaukee	Gilford	7/12/1991	John Conti	MA
Lake Trout	42.125"	37 lbs. 10.4 oz.	Big Diamond Pond	Stewartstown	2/25/2020	Thomas Knight	NH
Lake Whitefish	21.75"	5 lbs. 1 oz.	Lake Winnepesaukee	Alton	8/23/1974	Paul E. Littlefield	NH
Landlocked Salmon	34.50"	18 lbs. 8 oz.	Pleasant Lake	New London	8/31/1942	Mrs. Letty M. Clark	NH
	36.00"	18 lbs. 8 oz.	Pleasant Lake	New London	8/30/1914	Mr. P.H. Killelea	MA
Largemouth Bass	25.80"	10 lbs. 8 oz.	Lake Potanipo	Brookline	5/1967	G. Bullpitt	NH
Northern Pike	44.5"	26 lbs. 9.44 oz.	Moore Reservoir	Dalton	2/16/2013	Kevin Phelps	NH
Pumpkinseed	10.50"	1 lb., 1.76 oz.	Lake Winnepesaukee	Moultonborough	1/7/2017	Michael Steffen	NH
Rainbow Trout	35.50"	15 lbs. 7.2 oz.	Pemigewasset River	Bristol	9/16/1996	Lance King	NH
Rock Bass	13.50"	1 lb. 8 oz.	Island Pond	Stoddard	9/18/1982	Linc Chamberland	CT
Round Whitefish	18.00"	1 lb. 11.68 oz.	Newfound Lake	Bristol	2/05/2005	Marty Martin	NH
Smallmouth Bass	23.25"	7 lbs. 14.5 oz.	Goose Pond	Canaan	8/1970	Francis H. Lord	MA
Splake Trout	26.88"	9 lbs.	Crystal Lake	Eaton	2/20/1980	Thomas Barbour	NH
Sunapee Trout	33.00"	11 lbs. 8 oz.	Sunapee Lake	Sunapee	10/2/1954	Ernest Theoharris	NH
Tiger Muskellunge	35.50"	11 lbs. 11.68 oz.	Connecticut River	W. Lebanon	6/27/1982	Brian Patch	NH
Tiger Trout	20.00"	3 lbs. 8.64 oz.	Willard Pond	Antrim	7/6/2011	Molly Metivier	NH
Walleye	34.00"	12 lbs. 8.8 oz.	Connecticut River	Wells River, VT	5/4/1992	Anthony Bartolini	NH
White Catfish	23.00"	5 lbs. 11 oz.	Big Cub Pond	Danville	8/4/1996	Zachary Cross	NH
White Perch	17.20"	3 lbs. 11.5 oz.	Lake Winnepesaukee	Moultonborough	12/29/1986	John J. Ziolkowski	CT
White Sucker	22.50"	4 lbs. 13.28 oz.	Pawtuckaway Lake	Nottingham	4/16/2014	Jooson Kim	NH
Yellow Bullhead	16.00"	2 lbs. 8 oz.	Pecknolds Pond	Chester	8/1980	Gerald Menard	NH
Yellow Perch	15.50"	2 lbs. 6 oz.	Head's Pond	Hooksett	3/4/1969	R. Hebert	NH

Trophy Fish Program

New Hampshire's Trophy Fish Program gives anglers of all ages recognition for their biggest catches, while giving biologists important information on the fisheries over time. There are awards for both kept and released fish in 23 freshwater species and 7 saltwater species categories.

All qualifying entrants receive a "Trophy Fish" shoulder patch for submitting their catch information. Each year, the person catching the heaviest fish or releasing the longest fish in a particular species category receives a certificate suitable for framing. All ages and all legal methods of angling are represented. Your trophy may qualify for a state record; see list above.

Check fishnh.com for N.H. trophy fish rules, minimum weights/lengths and entry forms.

Thomas Knight, of Meredith, New Hampshire, caught a lake trout that weighed in at 37.65 pounds, easily breaking the state record that was more than 60 years old.

BOATING IN N.H.

New Hampshire is a boater's paradise!

You're never more than a short drive away from a boatable lake, pond or river in the Granite State. There are more than 400 public federal and state-owned launch sites where you can get your motorboat, kayak or canoe into the water to fish, boat and paddle on New Hampshire's scenic waterways.

Boating Education Required

New Hampshire has a mandatory boating education law. Everyone 16 years of age and older who operates a motorboat over 25 horsepower on New Hampshire waters must have a boating education certificate. Find a class at boatingeducation.nh.gov.

Boat Access Sites

N.H. Fish and Game owns and maintains 142 public boat access sites around the state. Visit fishnh.com/access for a list or to find Fish and Game boat ramps by town. For more information, call Fish and Game Boat Access Coordinator Garret Graaskamp at (603) 271-1748.

Register Your Boat

The N.H. Department of Safety is responsible for issuing boat registrations in New Hampshire. Call (603) 271-2333. A few boating registration fast facts:

- **Which boats?** All motorized vessels of any size must be registered, in addition to sailboats and sailboards 12 feet or longer. Unmotorized canoes, kayaks and small sailboats do not need to be registered.
- **New boat:** The boat owner must register in person at any N.H. Department of Motor Vehicles substation. Some marinas, sport shops, and town halls also can provide boat registrations; call first. The owner will be asked to show proof of ownership (such as a bill of sale) and a photo ID.
- **Renewal:** Once a boat is registered, registrants will receive a renewal form in the mail in subsequent years; boat registrations may be renewed by mail or in person.

Reciprocity

Any vessel that is registered in another state may operate on New Hampshire waters for 30 consecutive days or less without a New Hampshire boat registration. Operators must have the appropriate Safe Boating Certificate.

Boating Safety Courses

- Classes offered year-round by N.H. Marine Patrol.
- Many locations throughout the state.
- Open to any boater over 14 years of age.
- Online study materials: boat-ed.com/nh
- NASBLA approved.
- Satisfies requirements of mandatory boating education law.
- For class schedule, call N.H. Marine Patrol at 1-888-254-2125 or visit boatingeducation.nh.gov.
- Be smart — boat safe!

Ten Tips for Safe Boating

- 1. Don't Overload** Carry only the specified limit for your craft and don't sit on the gun-wales or the transom.
- 2. Wear Life Jackets or Vests** State law requires one wearable life preserver for each person in a boat. Kids 12 and under must wear a life preserver while underway on a vessel.
- 3. Know the Water** Always carry a chart (map) of the waters you are boating on.
- 4. In an Accident** Your first obligation is to save lives and help the injured. Call N.H. Marine Patrol: (603) 293-2037.
- 5. Water and Alcohol Don't Mix** Sixty percent of recent boating fatalities in N.H. are alcohol-related. Don't drink and boat—the .08 law applies to boaters, too!
- 6. Use Your Lights** All boats operating after dark must display lights to be visible to other boaters.
- 7. Use Caution** When passing within 150 feet of another boat, swimmers, rafts, shore, docks, or mooring fields, you must be at headway speed.
- 8. Don't Use the Water as a Dump** It is illegal to litter or discharge sewage into the water.
- 9. Don't Harass Wildlife** All wildlife are protected on the state's waters, subject to strict hunting and fishing regulations.
- 10. Take a Boating Safety Course** For info call Marine Patrol at (603) 267-7256.

Drain Those Live Wells!

N.H. State law requires boaters to drain their boat and other equipment that holds water, including live wells and bilges, when leaving a waterbody.

Good Fishing Depends on Clean Water

Many of our rivers, lakes, and coastal areas are experiencing algae blooms that cover our favorite fishing spots with green slime and cause fish kills and "dead zones" where no aquatic life can survive. The cause is usually nitrogen and phosphorus pollution that comes from farm and lawn fertilizers, septic systems, animal waste, and sewage treatment plants. Everyone can do their part for clean water by reducing fertilizer use, preserving plants along shorelines, and picking up pet waste. Supporting water quality protection supports great fishing! Learn more at: epa.gov/nutrientpollution. A message from the US Environmental Protection Agency.

Wildlife & Sport Fish Restoration: More Than 75 Years of Restoring, Managing and Researching Fish and Wildlife

Our thanks to hunters, shooters, anglers, boaters, and our industry partners! With the purchase of firearms and ammunition, archery equipment, fishing equipment, and motorboat fuels, hunters, anglers, boaters, and manufacturers pay excise taxes that are distributed to state fish and wildlife agencies for approved projects.

The US Fish and Wildlife Service joins state fish and wildlife agencies, private industry and the public in a partnership to conserve fish and wildlife resources.

With help from more than \$150 million in federal aid funding over more than 75 years, New Hampshire Fish and Game has been able to:

- Gain knowledge through research
- Manage fish and wildlife populations
- Acquire Wildlife Management Areas
- Improve and protect aquatic habitat
- Restore fish and wildlife populations
- Conduct Hunter and Aquatic Education programs
- Construct, upgrade, and maintain more than 140 public access sites for boating and fishing.

Your purchase of hunting and fishing equipment and motorboat fuels supports wildlife and sport fish restoration and boating access facilities.

Diver There, Please Beware

N.H. State law requires boaters to stay at least 150 feet away from a red flag with a white stripe or other flags in the water. They signal that scuba divers are in the area.

CLEAN DRAIN DRY

CLEAN off any mud, plants, animals and algae from boats, trailers and equipment.

DRAIN your boat and equipment away from the waterbody.

DRY anything that comes into contact with the water.

Please perform a self-inspection of your boat, trailer and gear.

Remove tag-along plants, animals and algae before launching and after leaving a waterbody.

It is **ILLEGAL** to transport and introduce aquatic invasive species in New Hampshire.

Boaters are **REQUIRED BY LAW** to clean and drain live-wells and other water-related equipment when leaving water bodies.

FISHING THE “HARDWATER” SEASON

Get your family excited about going ice fishing!

A few basic preparations can make your ice-angling adventure a day to remember.

Ice fishing equipment is specialized but simple. You need a sled for moving equipment onto the ice—a big plastic boat sled can haul your gear or a tired child. A homemade sled works great, too; try a wooden box attached to a pair of old downhill skis.

A “spud” can be used to test the thickness of the ice, to make holes in the ice, or to re-open holes made by someone else. An auger is a giant drill for making holes in the ice; get a hand auger for the exercise, or a power auger to make lots of holes in a hurry. Use a “skimmer”—a long-handled slotted spoon—to remove slush and ice from your ice-fishing holes.

The most popular ice-fishing device is the “tip-up.” The reel, spooled with several hundred feet of braided line, is submerged in the water; the rest of the device is suspended on the ice by a pair of crossed “arms.” A simple triggering mechanism makes a flag pop up when a fish takes the bait, at which point you pull the device from the water and reel the fish in by hand.

Your bait will usually be near the bottom, so you’ll want a “sounder” to know how far down the bottom is. A sounder is a heavy metal weight with a clip that attaches to your hook or line. Lower it into the hole, and take the guesswork out of how deep to fish. Mark your line with a button or small sinker, and you won’t have to re-sound after catching a fish or changing bait.

For a more active ice-fishing experience, try a jig rod—like a regular spinning outfit with a short (2 to 3-foot) rod. Jig rods are named for the up-and-down “jig” motion the angler gives the bait or lure. They allow you to fish throughout the water column.

You’ll Need Bait

Live shiners are the bait of choice, and are sold in many locations. You will need a bait bucket for them, and a bait dipper, which is a small net to retrieve the little rascals from the cold water. Mealworms and maggots are best baits for sunfish and crappies.

What to Wear

A good pair of insulated boots, heavy wool socks and long johns are musts. A fleece layer is next—or perhaps the traditional wool pants and shirt. Your outer layer needs to be wind-proof and waterproof; snow pants and a good winter coat will do the trick. Layering will give you and your family better protection and comfort in the cold. Don’t forget a warm hat and insulated gloves.

Bring Snacks

Snacks and drinks are very important for keeping your energy up on the ice. Fill a thermos with beef stew or mac and cheese, and another with hot cocoa.

Other Gear

A small tackle box carries other items you shouldn’t be without—hooks, spare sounders, non-lead sinkers, lures, jigs, a first-aid kit, pliers and trash bags. For safety and comfort, also bring rope (15 feet), extra clothing (leave in vehicle), a compass, fire starter and matches, a folding lawn chair or pack chair, a heavy blanket, and those handy little instant-heat packets. Consider ice crampons or “creepers” for walking on ice.

Ice fishing is the main focus of the trip, but there is some waiting involved; having activities to keep busy and warm will only add to the fun. Frisbee, wildlife tracking, snow-fort building and skating are favorites. Time of day doesn’t matter, so plan your trip around the warmest part of the day, and keep it short to start. You don’t have to go far from home to have a good time ice fishing. Let’s face it—New Hampshire winters can seem a little long. Having an activity to look forward to makes them much more fun. Enjoy your winter on the ice!

Whether you’re fishing for trout, bass, crappie, or perch — ice fishing is a great way to spend a winter day.

General Rules

Ice fishing in most New Hampshire lakes and ponds begins at “ice-in” and ends at “ice-out.” Depending on the weather and ice safety, this “season” can be from late December through mid-April. These types of waters support mostly warmwater fish populations, including perch, pickerel, black crappie and bass, with a few waters providing opportunities to catch brook, rainbow or brown trout through the ice. For specific bag limits for certain species, see *Lakes & Ponds: General Rules* on page 13. **Waters managed for lake trout and/or salmon have a defined season of January 1 through March 31. Remember—salmon may not be taken through the ice. Designated trout ponds are closed to ice fishing.**

On most New Hampshire waters, the general rule is 6 ice fishing devices (lines) per person when ice fishing, with the following exceptions:

- Ice anglers are limited to 5 lines while ice fishing on N.H.-Maine border waters, except Great East Lake, which has a 2-line limit.
- Only 2 ice fishing devices (lines) per angler are allowed when fishing the designated lake trout and salmon lakes listed below (see exceptions under Cusk Fishing).

Note on Interstate Waters: See pages 38–39 for additional rules for ice fishing on interstate waters.

Hooks used for bait while ice fishing must have only a single hook with a single hook point per ice fishing device.

Bob houses must be removed from public waters, public property or private property no later than April 1. The owner’s name and address shall be plainly marked on the bob house and shall have 12 square inches of reflective material half-way up on the outside of each side.

Cusk Fishing

Freshwater cusk (burbot) may be taken through the ice with a cusk fishing device (see definition on page 8) marked with the name and address of the user. In addition to the normal number of lines allowed (see line limits above), up to 6 cusk fishing lines may also be used. Any species other than cusk caught on a cusk line must be released immediately by cutting the line without removing the fish from the water.

The sinker of the cusk fishing device must rest on the bottom of the waterbody. Through the ice, cusk fishing devices will be permitted to be set and left unattended, except once during each 24-hour period, the bait end of the line must be inspected. “Bobbing,” “jigging,” or movement of the bait to attract fish is prohibited.

The use of cusk fishing devices is restricted to the following waters: First Connecticut Lake (Pittsburg), Second Connecticut Lake (Pittsburg), Third Connecticut Lake (Pittsburg), Lake Francis (Pittsburg), Lovell Lake (Wakefield), Merrymeeting Lake (New Durham), Newfound Lake (Bristol, Alexandria, Bridgewater, Hebron), Ossipee Lake (Freedom/Ossipee), Silver Lake (Madison), Big Squam Lake (Holderness, Center Harbor, Sandwich, Moultonboro), Little Squam Lake (Holderness, Ashland), South Pond (Stark), Sunapee Lake (Newbury, New London, Sunapee), Waukegan Lake (Meredith), Wentworth Lake (Wolfboro), Lake Winnepesaukee (Alton, Center Harbor, Gilford, Laconia, Meredith, Moultonboro, Tuftonboro, Wolfeboro), and Winnisquam Lake (Belmont, Sanbornton, Laconia, Tilton, Meredith).

Safety on Ice

Is the ice safe? You won’t know until you test it. Use a chisel or “spud” to thump the ice as hard as you can; if it does not break through, continue onto the ice. Make a test hole to check the thickness where you hit, and check the ice at intervals on your way out to your fishing spot.

Generally speaking, solid, clear ice of 5 to 6 inches is adequate for small groups; ice thickness of 8 inches and up is good for large groups. Be aware that ice can be weakened by objects frozen into it, because they hold the heat from the sun; avoid docks, large rocks and trees fallen onto the ice. Also avoid areas with springs or moving water under the ice. Visit fishnh.com/outdoor-recreation/ice-safety.html to learn more.

YOUR FISHERIES HABITAT FEE

Restoring and Conserving Fish Habitat in New Hampshire

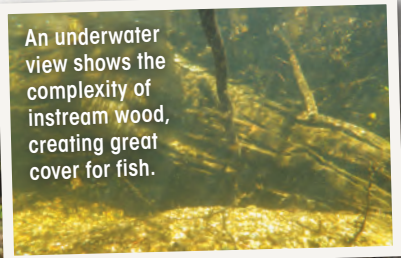

When you buy a fishing license in New Hampshire, \$1 of your license fee goes into the Fisheries Habitat Account. This account has funded many restoration and land conservation efforts over the years. Typically, it funds about 10-20% of completed fisheries habitat projects.

To meet the goal of providing diverse fishing opportunities, the **Fisheries Habitat Program** restores and conserves habitat. For fish habitat restoration projects in streams and rivers, fisheries managers have learned from a body of large scientific studies that fish populations do best when their habitat is most like that which would naturally occur, so our projects mimic natural processes.

That typically means we are restoring riverine processes, things that create diverse habitats such as riffles and pools, with a particular focus on the restoration of instream wood, which has largely been removed from our rivers and streams. Instream wood is a natural part of streams and rivers. It forms deep pools and creates excellent shelter for all sizes and species of fish. It also can help reduce the nutrient load moving downstream; microbes such as bacteria and fungi live in the complex structure of instream wood (logs, sticks and leaves), and they use a large amount of the nutrients dissolved in the flowing water.

The Habitat Program conducts restoration projects with many partners across the state, representing the spectrum of conservation interests. Excellent relationships with our partners are vital to the successful completion of these high-priority projects. Typically, the program provides technical assistance, scientific analysis and recommendations to projects, and sometimes funding from the Fisheries Habitat Account.

Since 2000, the Habitat Account has been used to restore and conserve fish habitat across the state, and by a number of means. Much of this work has been done in streams and rivers, by strategically placing trees and boulders to restore natural river processes and aquatic habitat. Some examples are the Nash Stream and Indian Stream Restoration projects. Those two initiatives also included another activity: restoring the ability of fish to move throughout a watershed. Think about this in your life; you need to get to school, work, the grocery store, etc. Movement is especially important for fish to fulfill their life cycles and have healthy populations. We have focused on removing barriers, specifically culverts under roads, and replacing them with structures that do not impede the movement of fish. Another significant activity is the long-term preservation of the aquatic and nearby terrestrial habitat through land conservation. The account has provided funds to a number of high-priority projects, such as conservation of a property along the Connecticut River in Pittsburg that secured about five miles of habitat along the river, as well as several tributaries that flow into it.

An underwater view shows the complexity of instream wood, creating great cover for fish.

Johnson Brook at Nash Stream Forest — wood carefully placed into this stream created deep pools and provides lots of cover for trout.

Are you a Landlocked Salmon Angler?

Anglers can help to conserve our landlocked salmon fishery through responsible catch-and-release angling practices, including the use of rubber nets, careful removal of hooks, and minimizing the time fish are held out of water. By pledging to be a dedicated steward of New Hampshire's limited landlocked salmon fishery, you can make a real difference in sustaining this valuable resource. Check fishnh.com for more info and download a brochure.

Conserving This Unique Fishery Through Responsible Angling

Bag Limits and General Rules

The daily bag limit for smelt is 2 quarts liquid measure of whole (head and tail intact) freshwater smelt in the 24-hour period between 12 noon one day and 12 noon the following day. Persons taking freshwater smelt must at all times keep their individual take in separate, unbreakable containers marked with their name. A person cannot take smelt while using a boat propelled by mechanical power.

Season for Taking Smelt by Angling

From June 16 through March 14, smelt may be taken by angling only, except in Trout and Fly-Fishing-Only ponds, which are open June 16 through Oct. 15.

Season for Taking Smelt with a Dip Net

From March 15 through April 30, smelt may be taken by means of a dip net not over 18 inches in diameter, between the hours of sunset and 12 midnight. **Only the following waters are open to the taking of freshwater smelt by dip net:**

POND/LAKE NAME	TOWN
Deering Reservoir	Deering
Manning Lake/Guinea Pond	Gilmanton
Pea Porridge Pond	Madison
Rust Pond	Wolfeboro
Sandy Pond	Richmond
Suncook Lake	Barnstead
Sunset Lake/Places Pond	Alton, Gilmanton
Webster Lake	Franklin

STREAM/RIVER NAME	TOWN
Bearcamp River (From Tamworth/Ossipee town line to Ossipee Lake)	Ossipee
Mascoma River (From Canaan/Enfield town line to Mascoma Lake)	Enfield

Use of Lead Tackle Restricted in N.H.

New Hampshire state law prohibits the use and sale of all lead sinkers and jigs that weigh one ounce or less, regardless of length, in all fresh waters of the state. The law does not apply to lead core line, spinnerbaits, buzzbaits, spoons, poppers, plugs, or flies.

Loons and other waterbirds can die from lead poisoning after swallowing lead fishing sinkers and jigs lost by anglers.

Biologists have studied the effects of lead sinkers and jigs on waterbirds, such as loons and swans, since the 1970s. Their ongoing research has documented that, in the northeast U.S. and Canada where loons breed, lead sinkers or jigs can account for up to half of dead adult loons found by researchers.

What You Can Do:

- Do not use lead sinkers and jigs.
- Spread the word. Tell other anglers about the problem with lead.
- Dispose of old lead sinkers and jigs properly. Drop-off locations include all N.H. Fish and Game offices.
- Learn more at fishleadfree.org.

Careful with Those Plastic Baits!

New Hampshire fisheries biologists are reporting increasing numbers of caught trout and salmon with indigestible soft plastic lures in their stomachs. A discarded soft plastic lure consumed by a trout from the bottom of a freshwater lake likely remains in that fish's stomach for the rest of its life, and may cause health issues such as ulcers and weight loss. **Anglers are strongly encouraged to purchase biodegradable and food-based lures rather than soft plastic ones.** It is also important that anglers not discard plastic lures into any waters, and also to attempt to retrieve any soft plastic lures that have become unhooked.

These lures were found in the stomach of a 14-pound lake trout caught by George Manley of Sidney, Maine, in Maranacook Lake in 2009. (Image courtesy of MDIFW)

STOP AQUATIC HITCHHIKERS!

The quality of our waters is extremely valuable, both as a natural and economic resource. In addition to providing essential aquatic habitat, New Hampshire's waters annually provide 14.7 million visitor days for boating, fishing and swimming — popular family-oriented recreational activities that add more than \$1 billion to the state's economy each year. Your help is needed to protect these resources. **It's up to boaters and anglers to keep nuisance species from invading New Hampshire's waters!**

New Hampshire's waters are threatened by several non-native aquatic invasive plants and animals. They can easily be transported to new waters by boats, motors, trailers, fishing equipment, live-wells, bait buckets, diving gear and other aquatic recreational equipment. **Check your boat and equipment** and remove any plants or other materials—milfoil and other invasives can easily adhere to propellers and many other catch points.

Invasives can also be put into our waters by individuals who are not aware of the environmental and economic damages these nuisance plants and animals can cause. **Never release** plants, fish or animals into a body of water unless they came out of that body of water. It's the law!

Invasive Plants

RSA 487: 16-c states it is illegal to transport, import, purchase, propagate, sell, or distribute 14 species of non-native aquatic plants in New Hampshire. Among the 14 species, **variable milfoil** is the most abundant and problematic invasive aquatic plant in New Hampshire.

Invasive Animals

Nonnative invasive animals are also a growing concern in New Hampshire. **Zebra mussels** and **quagga mussels** can attach to boat hulls and clog water intake systems. They are not here yet—it is extremely important to keep them out of New Hampshire waters.

Asian clams are already present in the lower Merrimack River and several ponds; they compete with native mussels for space and food.

The **Chinese mystery snail** is also here, present in lakes and ponds as far north as the Lakes Region. **Rusty crayfish** have been found in Vermont. The **spiny water flea** and the **fishhook**

water flea are present in the Great Lakes and Lake Champlain. These invaders compete with native species for zooplankton, affecting the entire food chain.

It's the Law

RSA 487:16-d requires boaters to drain their boat and other equipment that holds water, including live wells and bilges, when leaving a waterbody. Pursuant to RSA 487:43, a special aquatic invasive species out of state boater decal will be required for display on motorized boats registered in a state other than New Hampshire, which are used on New Hampshire's

waters. **NOTE:** This program is currently being established and is not yet implemented. We anticipate the out of state boater decal to be online for 2021 boating season, with online interface ready starting in December 2020, for purchase of 2021 decals. The boater decal will be available at www.des.nh.gov.

Learn More

For more information, contact the N.H. Department of Environmental Services, Exotic Species Program at 603-271-2248, des.nh.gov; N.H. Fish and Game at 603-271-2501, fishnh.com; or visit protectyourwaters.net.

STOP AQUATIC HITCHHIKERS!

Clean...Drain...Dry

To help prevent the transport of aquatic nuisance species, clean all recreational equipment whenever you leave a body of water:

- **Remove** any visible mud, plants, fish or animals.
- **Drain water from equipment** (engine water intake systems, bilge, live wells, bait buckets).
- **Clean and dry** anything that comes into contact with water (boats, paddles, trailers, waders, etc.).

Before leaving and before launching...
inspect everything!

BAIT FISH INFORMATION

Possession and Use of Live Fish for Bait

- Only the following species shall be possessed and used as live fish for bait when fishing any freshwaters of the state:

Common name (Scientific Name)

- » Rainbow smelt (*Osmerus mordax*)
 - » Longnose dace (*Rhinichthys cataractae*)
 - » Blacknose dace (*Rhinichthys atratulus*)
 - » Northern redbelly dace (*Phoxinus eos*)
 - » Lake chub (*Couesius plumbeus*)
 - » Creek chub (*Semotilus atromaculatus*)
 - » Fallfish (*Semotilus corporalis*)
 - » Golden shiner (*Notemigonus crysoleucas*)
 - » Common shiner (*Luxilus cornutus*)
 - » Emerald shiner (*Notropis atherinoides*)
 - » Spottail shiner (*Notropis hudsonius*)
 - » Silvery minnow (*Hybognathus nuchalis*)
 - » Creek chubsucker (*Erimyzon oblongus*)
 - » Longnose sucker (*Catostomus catostomus*)
 - » White sucker (*Catostomus commersonii*)
 - » Killifish/tomcod (*Fundulus sp.*)
- Daily limit of bait fish for personal use is 2 quarts liquid measure. See special rules for rainbow smelt on page 33.
 - No more than 6 bait traps shall be used to take fishing bait, and all bait traps, holding boxes, or other receptacles shall be plainly marked with the name and address of the owner or user.
 - A circular drop net, not more than 48 inches in diameter, or a square net of equal area, may be used for taking baitfish, from waters not inhabited by brook trout. Traps may be set for taking baitfish, in water inhabited by trout, provided that no such trap shall exceed 18 inches in length, and that the aperture therein for the entrance of fish shall not exceed one inch in diameter.

White Suckers

In addition to angling and ice fishing, white suckers may be taken for personal use as bait by use of traps, made of wire slats not more than 50 inches long nor more than 30 inches wide, with an aperture for the entrance of fish no smaller than 3 1/2 inches in diameter, except as otherwise provided in Fis 406 and Fis 407. No more than 2 traps shall be used by a licensed fisherman, and all bait traps, holding boxes or other receptacles shall be plainly marked with the name and address of the owner and user. There are no bag limits for suckers.

Importation of Finfish for Bait

- Licensed bait dealers shall obtain a permit from the N.H. Fish and Game Department before importing any shipment or lot of bait fish from hatchery sources or wild stock. Such permits shall be issued to import only:

Common name (Scientific Name)

- » White sucker (*Catostomus commersonii*)
- » Eastern creek chubsucker (*Erimyzon oblongus*)
- » Tomcod/killifish (*Fundulus sp.*)

- » Golden shiner/Arkansas shiner (*Notemigonus crysoleucas*)
 - » Common shiner (*Luxilus cornutus*)
 - » Spottail shiner (*Notropis hudsonius*)
 - » Eastern silvery minnow (*Hybognathus regius*)
 - » Emerald shiner (*Notropis atherinoides*)
 - » Lake chub (*Couesius plumbeus*)
 - » Creek chub (*Semotilus atromaculatus*)
 - » Fallfish (*Semotilus corporalis*)
 - » Rainbow smelt (*Osmerus mordax*)
- Live fish imported for use as freshwater fishing bait may only be imported from states with an approved aquatic invasive species monitoring program. No species of aquatic invertebrate shall be imported for use as bait or otherwise.

Taking of Smelt by Licensed Bait Dealers

- Licensed bait dealers may take freshwater smelt for sale as bait or for personal use, in accordance with the restrictions for taking smelt in Fis 400.
- No licensed bait dealer shall have in possession more than one daily limit of freshwater smelt while taking freshwater smelt for sale as bait from streams, pond or lakes, or when leaving such waters.
- Licensed bait dealers may take freshwater smelt for sale as bait, from ice-in through February 28 in the following waters:
 - » Beech Pond (Lower), Tuftonboro
 - » Cedar Pond, Milan
 - » Christine Lake, Stark
 - » Crystal Lake, Enfield
 - » Crystal Lake, Gilmanton
 - » Crystal Pond, Eaton
 - » Deering Reservoir, Deering
 - » Iona Lake, Albany
 - » Loon Lake, Freedom
 - » Loon Pond, Gilmanton
 - » Manning Lake, Gilmanton
 - » Pea Porridge Pond, Madison
 - » Pleasant Lake, Deerfield
 - » Post Pond, Lyme
 - » Rust Pond, Wolfeboro
 - » Sandy Pond, Richmond
 - » South Pond, Stark
 - » Sunapee Lake, Little, Springfield
 - » Suncook Lakes, Barnstead
 - » Sunset Lake, Alton/Gilmanton
 - » Tewksbury Pond, Grafton
 - » Webster Lake, Franklin
 - » Wentworth Lake, Wolfeboro
 - » White Lake, Tamworth

- Licensed bait dealers may take smelt in the waterbodies listed above by means of a dip net held in hand, a drop net not over 48 inches in diameter, or by means of a square umbrella net not over 42 inches on a side.
- The daily limit for smelt taken in waterbodies listed above shall be 8 quarts liquid of whole, head and tail intact, freshwater smelt in the 24 hours between 12 noon one day and 12 noon the following day.

Crayfish

Crayfish may be taken for personal use with traps. The number of traps is limited to 6 per person and must have the person's name and address attached. Persons wishing to trap and sell crayfish for bait must purchase a commercial bait dealer's license. There are no daily bag or possession limits for crayfish. 6 trap limit does not apply to dealers.

Got Questions?

For more information about licensed bait dealer regulations, please contact the N.H. Fish and Game Department's Inland Fisheries Division at (603) 271-2501.

Dispose of Bait on Land or in the Trash

Bait and non-native plants and animal hitchhiking in bait can harm our lakes and rivers. Remember not to litter—please dispose of bait containers in appropriate receptacles!

INTERSTATE WATERS

NEW HAMPSHIRE • MAINE

Licenses

All New Hampshire and Maine fishing licenses are valid for the taking of fish from New Hampshire-Maine interstate waters listed below.

Waters Include:

- **Umbagog Lake** in Errol/Cambridge, NH, and Upton, ME, which includes the waters of the Androscoggin River downstream to the Errol Dam, the waters of the Magalloway River upstream to coordinates 44.795602° -071.062732° to 44.795602° -071.061793° using WGS84 map datum within New Hampshire and the waters of the Rapid River upstream to the marker at Cedar Stump in Maine.
- **Province Lake** in Effingham/Wakefield, NH, and Parsonsfield, ME.
- **Balch Pond** in Wakefield, NH, and Acton/Newfield, ME.
- **Horn Pond** in Wakefield, NH, and Acton, ME.—The northern terminus of Horn Pond will be delineated by signage.
- **Great East Lake** in Wakefield, NH, and Acton, ME.
- **Milton Watershed** in Milton, NH, and Lebanon, ME (Milton Watershed includes all of the Milton Three Ponds—Northeast Pond, Milton Pond and Townhouse Pond, beginning at the dam in Milton to the influx of the Branch River and the Salmon Falls River).
- **Lower Kimball Pond** in Chatham, NH, and Fryeburg, ME.
- **Spaulding Pond** in Milton, NH, and Lebanon, ME.
- **Salmon Falls River** in Wakefield, Milton, Rochester, Somersworth and Rollinsford, NH, and Acton, Berwick and South Berwick, ME, including the upper reach of the Salmon Falls River beginning at the outlet dam of Great East Lake, also known as State Line Canal, to a point downstream marked by signage delineating the northern terminus of Horn Pond.

Dates

Whenever a period of time is named during which an act is permitted or prohibited, both the first and second dates named are included within such period.

Ice Fishing Restrictions (NH • ME)

Fish may only be taken through the ice from January 1 through March 31 in lakes and ponds (except cusk and salmon).

It is unlawful to:

- Use more than five (5) lines; except on Great East Lake where no more than two (2) lines can be used.
- Take, sell or possess for use as bait any of the following fish, dead or living—pickerel, goldfish, yellow perch, white perch, bass, sunfish, crappie, horned pout, carp or any spiny-finned fish.

Ice Fishing Shacks

No person who owns any shack or temporary structure used for ice fishing shall place, or allow to be placed, the shack or structure on the ice more than 3 days before the waters on which shack or structure is located are open to ice fishing.

All ice fishing shacks, while on the ice, must have the name and address of the owner on the outside in 2-inch letters.

Ice fishing shacks shall be removed from the ice within 3 days after those waters close to ice fishing.

Open Water Restrictions (NH • ME)

It is unlawful to:

- Have more than two (2) lines in use;
- Take, sell or possess for use as bait any of the following fish, dead or living—pickerel, goldfish, yellow perch, white perch, bass, sunfish, crappie, horned pout, carp or any spiny finned fish;

New Hampshire - Maine General Interstate Rules

SPECIES	SEASON	BAG LIMITS AND MINIMUM LENGTHS	IMPORTANT NOTES
Black Bass (Largemouth and Smallmouth Bass)	January 1 – March 31	2-fish daily limit; only 1 fish more than 14 inches	
	April 1 – May 14	2-fish daily limit; only 1 fish more than 14 inches	
	May 15 – June 30	Catch and release only	Artificial lures and flies only
	July 1 – December 31	2-fish daily limit; only 1 fish more than 14 inches	
Brook Trout	January 1 – September 30	2 fish daily limit; Minimum length 6 inches	Catch and release only October 1 – December 31
Rainbow Trout	January 1 – September 30	2 fish daily limit; Minimum length 10 inches in lakes and ponds and 6 inches in rivers and streams	Catch and release only October 1 – December 31
Brown Trout	January 1 – September 30	2 fish daily limit; Minimum length 10 inches in lakes and ponds and 6 inches in rivers and streams	Catch and release only October 1 – December 31
Lake Trout	January 1 – September 30	2 fish daily limit; Minimum length 18 inches	Catch and release only October 1 – December 31
Landlocked Salmon	April 1 – September 30	2 fish daily limit; Minimum length 14 inches	Catch and release only October 1 – December 31
Chain Pickerel	Open year round	10 fish daily limit; no length limit	
Smelt	Open year round	2 quart daily limit	Angling only
Cusk	April 1 – December 31	None	
All other species	Open year round	None	

Exceptions to New Hampshire - Maine General Interstate Rules

WATERBODY	EXCEPTIONS
Great East Lake	No more than 2 lines during ice fishing season; lake trout minimum length is 16 inches; No smelt may be taken in tributaries
Lower Kimball Pond	Use of dip nets not over 18 inches in diameter shall be permitted between sunset and 12 midnight during the open water season for smelt
Salmon Falls River	Open year round, except closed to taking fish through the ice
Umbagog Lake	That portion of Umbagog Lake north of a straight line between Molls Rock, Errol, New Hampshire and the red post between Spillman and Glassby Coves, Magalloway Plantation, Maine shall be closed to ice fishing; brook trout minimum length is 18 inches; brook trout daily limit is 1 fish

NEW HAMPSHIRE • VERMONT

Connecticut River Regulations

For that portion of the river between New Hampshire and Vermont. "Connecticut River" means all waters of the river including the bays, set backs and tributaries, only to the first highway bridge crossing said tributaries on the Vermont and New Hampshire sides.

Licenses

All New Hampshire resident and Vermont resident fishing licenses are valid for the taking of fish from the Connecticut River as defined above. All other nonresidents with a N.H. nonresident fishing license shall only take fish east of the Vermont low water mark while on the Connecticut River.

Season

Open to fishing all year, except no fishing Oct. 16 – Dec. 31 from the confluence of the Upper Ammonoosuc River and the Connecticut River in Northumberland, NH, to the northern boundary of the town of Canaan, VT.

Devices

No more than 6 ice fishing devices are allowed. When fishing in open water, no more than 2 lines may be used.

Species Rules

The rules below apply during the open season for fishing.

- **American Shad:** Catch and release only.
- **Atlantic Salmon:** No open season for Atlantic salmon until declared by the Connecticut River Atlantic Salmon Commission.
- **Black Bass (Largemouth and Smallmouth Bass):** The daily bag limit for black bass is 2 fish, of which only one may be greater than 16 inches, from January 1 through March 31.
 - » The daily limit for black bass from April 1 through May 14 and June 16 to June 30 is 2 fish.
 - » Between May 15 and June 15, all black bass shall be immediately released unharmed,

at the site of catch, to the waters from which taken.

- » The daily limit for black bass from July 1 through December 31 is 5 fish.
- » During the period beginning May 15 and ending June 15, black bass shall be taken only by artificial lures and flies.
- **Black Crappie, Yellow and White Perch, Sunfish, Horned Pout (Bullhead):** The daily bag limit for each species shall be 25 fish and the aggregate daily limit shall not exceed 50 fish.
- **Brook, Brown and Rainbow Trout:** The season for taking brook, brown or rainbow trout by all legal methods shall open on January 1 and close October 15.
 - » Through open water, the daily limit is 5 fish or 5 pounds (whichever limit is first reached), except the daily limit is 1 fish from the Samuel Moore Dam downstream to the Rte. 18 bridge.
 - » Through the ice, the daily limit is 2 fish, except the daily limit is 1 fish from the Samuel Moore Dam downstream to the Rte. 18 bridge.
 - » From the Pittsburg, NH-Canaan, VT boundary downstream to the bridge that crosses the Connecticut River from West Stewartstown to Canaan, VT, from January 1 through March 31, all trout and salmon shall be immediately released unharmed and fishing will be permitted with barbless, single hook lures and flies only.
- **Carp:** May be taken by any legal method and by bow and arrow with cord attached, in that part of the river beginning at the point on the northern boundary of Grafton County in New Hampshire which is directly opposite the town of Concord, VT, south to the Massachusetts border.
- **Chain Pickerel:** The daily limit is 10 fish.
- **Northern Pike:** The daily limit is 1 fish; minimum total length 28 inches.

- **Round Whitefish:** Round whitefish (*Prosopium cylindraceum*) taken by any method shall be immediately released back into the waters from which it was taken.
- **Walleye:** No person shall take walleye 16 to 18 inches; the daily limit is 4 fish, of which only 1 can be larger than 18 inches.

Special Exceptions

From a point 1,600 feet upstream from the bridge in North Stratford upstream to a point 250 feet below the Lyman Falls Dam in North Stratford, and marked by a sign, the following restrictions apply: Fishing shall be permitted by artificial lures and flies only. All lures and flies shall have barbless hooks or shall have all barbs pinched so they will not interfere with removal of the hook from the fish. All fish are to be immediately released unharmed.

Fishways Closed

Vernon Dam in Vernon, VT., and Hinsdale, N.H., shall be closed to all fishing to a point 150 feet below the dam. Wilder Dam in Wilder, VT., and Lebanon, N.H., shall be closed to all fishing to a point 150 feet below the dam.

Aquatic Resources Education
N.H. Fish and Game Department

NEW HAMPSHIRE • MASSACHUSETTS

Licenses

All New Hampshire and Massachusetts fishing licenses are valid for the taking of fish from NH-MA interstate waters listed below.

Waters Include:

- **Bent Pond** in Winchester, NH, and Warwick, MA.
- **Long Pond** in Pelham, NH, and Dracut, MA.
- **Lake Monomonac** in Rindge, NH, and Winchendon, MA.

- **Robbins Pond** in Rindge, NH, and Winchendon, MA.
- **Tuxbury Pond** in South Hampton, NH, and Amesbury, MA.

Seasons

There are no closed seasons for taking any species, by all legal methods.

Species

For all species: see *Lakes and Ponds: General Fishing Rules* on page 13.

FISH CONSUMPTION GUIDELINES

Is it Safe to Eat the Fish?

Fish Consumption Guidelines

Fish can be an important part of a healthy diet, but some fish contain varying levels of pollutants including mercury. Because of this, the N.H. Department of Environmental Services recommends the following guidelines for eating freshwater fish that you catch in New Hampshire:

- Pregnant and nursing women, and women who may become pregnant, can safely eat **ONE**, 8-ounce meal of freshwater fish per month.
- Children under age 7 can safely eat **ONE**, 4-ounce meal of freshwater fish per month.
- All other adults and children age 7 and older can safely eat **FOUR** 8-ounce meals of freshwater fish per month.
- When eating bass, pickerel, white perch, or yellow perch, limit consumption to fish 12 inches or less in length while following the above guidelines.

Stocked trout contains relatively low levels of mercury. For rainbow and brown trout, women of childbearing age and children under age 7 can safely eat **ONE** 4-ounce meal per week; others can eat **SIX** 8-ounce meals per week. Brook trout could be either stocked or from a native population, and therefore should be consumed at the rate of the general freshwater advisory above.

Fish from a number of waterbodies in New Hampshire have been shown to have higher than average concentrations of mercury or other contaminants. For a complete list of water bodies with restrictions, go to des.nh.gov (search "fish consumption" in the A to Z list).

Additional consumption guidelines have been issued because of the concern for PCB (polychlorinated biphenyls) contamination in several locations.

- Country Pond in Kingston
- Squam Lake in Holderness, Center Harbor, Sandwich & Moultonboro

- For the Souhegan River from the Goldman Dam to one mile upriver near Riverway East located off of Elm Street in Milford it is recommended that anglers not eat, but catch and release unharmed, any fish caught in that section of river.

In addition, **NO** fish should be consumed from the Androscoggin River from Berlin south to the Maine border due to potential dioxin and mercury contaminations.

For more information on freshwater and saltwater guidelines, contact: N.H. Department of Environmental Services, Environmental Health Program (603) 271-1370, des.nh.gov (search "fish consumption" in the A to Z list).

Angling Perfection

TATULA

NEW! TATULA 300 BAIT CASTING REELS

The perfect option for anglers fishing large presentations for even larger fish. What really makes the Daiwa Tatula 300 so special is the inclusion of the T-Wing System level-wind. When you take the reel out of gear it allows for less resistance on the line, allowing the line to cast further.

NEW! PROCYON AL - SPINNING REEL

For a higher level of performance, the Daiwa Procyon AL spinning reel family is back for the attack whether that means freshwater or inshore applications. From speckled trout, redfish, and snook to bass, walleye, and trout, the Procyon AL offers anglers the perfect reel for the pursuit.

TATULA®-XT BASS RODS

For the experienced bass fisherman that needs quality & value. Tatula XT incorporates High Volume Fiber, a higher modulus carbon graphite construction which gives the Tatula XT series its lightweight, strength & sensitivity. X45® Bias Graphite Construction for virtually zero blank twist.

NEW! FUEGO BASS RODS

All of the high quality features including lightweight graphite construction & comfortable EVA material handles. Slim & powerful lightweight construction, anodized stainless steel hooded reel seat, oxide ring guides, convenient hook keeper

Save the date! FISHINGFEST® 2021 ~ April 1-4 ~ Freshwater, Saltwater, Fly Fishing Specials & more!
